

How much will a prescription cost? Are there less costly alternatives?

Price-a-DrugSM Tool from Aetna Pharmacy Management

Before you buy a car, refrigerator or even a pair of shoes, you do a little research first.

- You look up the Blue Book value of the car and compare it to the sticker price
- You see how Consumer Reports ranked that refrigerator against other brands
- You shop around to see if another place has those same shoes — or similar ones — for less

Comparison shopping for prescription drugs

Now you can do that same type of research on prescription drugs.

Our Price-a-Drug tool lets you:

- Find out roughly how much a drug may cost at a participating pharmacy in your area — and how much of that cost you may owe based on your pharmacy benefits.
- See how much that same drug would cost if you used our Aetna Rx Home Delivery[®] mail-order service.
- Get a list of other, low-cost medications available to talk about with your doctor — and see how much you could save.
