

# Nationally Contracted Walk-In Clinics

This section contains a list of all nationally contracted walk-in clinics. Each nationally contracted walk-in clinic is staffed with nurse practitioners and/or physician's assistants as well as a physician on call during all hours of operation. Walk-in clinics are designed to treat ailments such as strep throat, pink eye, and seasonal allergies as well as offer a limited list of vaccines such as tetanus, hepatitis and pneumonia. Walk-in clinics are not designed to be an alternative for primary care providers. Walk-in clinics offer a quick alternative for common ailments with no appointment necessary.

Occasionally, a patient shows symptoms that are not within the walk-in clinic's treatment guidelines. In that case, nurse practitioners and physician assistants are qualified to screen and refer patients to the appropriate health care provider at no charge to the member.

The specialist copay will apply for all visits to nationally contracted walk-in clinic locations. Members who access care at walk-in clinic sites do not require a referral from their primary care physician.
