

Know before you go!

Cost of Medical Procedures by Facility — Online

When you buy a new car, you want to know what you're getting for your money. It should be the same when you buy health care.

And with Aetna,[‡] it is.

That's because you get access to a set of online tools that help you estimate your health care costs — before you visit a doctor or go to the hospital.

You need to know

Through our industry-leading suite of transparency tools, we give you cost information for doctors, hospitals and other medical facilities.

Our Cost of Medical Procedure by Facility Tool helps you review and compare the cost of medical procedures at facilities in select locations around the country.

This online tool gives you an easy way to find the cost for over 30 common medical procedures performed at specific hospitals and other health care facilities.

*Not all hospitals or facilities will display for a given area due to data and/or contractual limitations. While Aetna makes every attempt to validate the accuracy of the cost information, Aetna does not guarantee the accuracy of any particular cost amount.

**HSAs and HRAs are not available to HMO members in Illinois.

[‡]Health benefits and health insurance plans are offered, underwritten and/or administered by Aetna Health Inc., Aetna Health of California Inc., Aetna Health of the Carolinas Inc., Aetna Health of Illinois Inc., Aetna Health Insurance Company and/or Aetna Life Insurance Company (Aetna). In Maryland, by Aetna Health Inc., 151 Farmington Avenue, Hartford, CT 06156.

How to get more from your health insurance benefits

You can look up costs for MRI, CT scan, colonoscopy and hysterectomy procedures, as well as common heart procedures and maternity care.

When you use this tool, you get a list showing the hospitals and other facilities in your area that perform these medical procedures.* This list includes actual cost ranges, by facility, for each of these procedures.

Make smarter decisions

Our online resources are easy to use. And they help you understand the value of your health care — before medical services are performed.

That's important, as more people take on more decision-making and financial responsibility for their health care.

Our tools can be very helpful if you have a high-deductible health benefits or health insurance plan. And they're also useful if you have a Health Savings Account (HSA) or Health Reimbursement Arrangement (HRA) fund.**

Here's how to get the facts

We'll help you get the information you need.

- To start, register for the secure Aetna Navigator® website at www.aetna.com.
- After logging on to Aetna Navigator, select "Cost of Care."
- Then click on "Compare Actual Cost Ranges by Facility."
- Enter your zip code, state and plan and select a procedure.

Based on your search, you get cost ranges for the procedures performed at facilities in your search area.

Combined with our other online tools, this facility cost information can help you make more informed health care decisions. That means you can get more value from your health benefits!

Providers are independent contractors and are not agents of Aetna. Provider participation may change without notice. Aetna does not provide care or guarantee access to health services. Health benefits and health insurance plans contain exclusions and limitations. Not all health services are covered. See plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage. Plan features may vary by location and are subject to change. Health information programs provide general health information and are not a substitute for diagnosis or treatment by a physician or other health care professional. Information is believed to be accurate as of the production date; however, it is subject to change. For information about Aetna plans, refer to www.aetna.com.

Policy forms issued in OK include: HMO/OK COC-4 09/02, HMO/OK GA-3 11/01, OK POS RIDER 08/07, GR-23 and/or GR-29/GR-29N.
