99201 - Office or other outpatient visit for the evaluation and management of a new patient, which requires these 3 key components: A problem focused history; A problem focused examination; Straight forward medical decision making. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs, usually the presenting problem(s) are self limited or minor, typically 10 minutes are spent face to face with the patient and/or family
99202 - Office or other outpatient visit for the evaluation and management of a new patient, which requires these 3 key components: A problem focused history; A problem focused examination; Straight forward medical decision making. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs, usually the presenting problem(s) are self limited or minor, typically 20 minutes are spent face to face with the patient and/or family
99203 - Office or other outpatient visit for the evaluation and management of a new patient, which requires these 3 key components: A problem focused history; A problem focused examination; Straight forward medical decision making. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs, usually the presenting problem(s) are self limited or minor, typically 30 minutes are spent face to face with the patient and/or family

<p>99204 - Office or other outpatient visit for the evaluation and management of a new patient, which requires these 3 key components: A problem focused history; A problem focused examination; Straight forward medical decision making. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs, usually the presenting problem(s) are self limited or minor, typically 45 minutes are spent face to face with the patient and/or family</p>
<p>99205 - Office or other outpatient visit for the evaluation and management of a new patient, which requires these 3 key components: A problem focused history; A problem focused examination; Straight forward medical decision making. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs, usually the presenting problem(s) are self limited or minor, typically 60 minutes are spent face to face with the patient and/or family</p>
<p>99211 - Office or other outpatient visit for the evaluation and management of an established patient that may not require the presence of a physician or other qualified healthcare professional. Usually the presenting problem(s) are minimal. Typically, 5 minutes are spent performing or supervising these services.</p>
<p>99212 - Office or other outpatient visit for the evaluation and management of an established patient, which requires at least 2 of these 3 key components: A problem focused history; A problem focused examination; Straight forward medical decision making. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs, usually the presenting problem(s) are self limited or minor, typically 10 minutes are spent face to face with the patient and/or family</p>
<p>99213 - Office or other outpatient visit for the evaluation and management of an established patient, which requires at least 2 of these 3 key components: An expanded problem focused history; An expanded problem focused examination; Medical decision making of low complexity. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs, usually the presenting problem(s) are of low to moderate severity, typically 15 minutes are spent face to face with the patient and/or family</p>
<p>99214 - Office or other outpatient visit for the evaluation and management of an established patient, which requires at least 2 of these 3 key components: A detailed history; A detailed examination; Medical decision making of moderate complexity. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs, usually the presenting problem(s) are of moderate to high severity, typically 25 minutes are spent face to face with the patient and/or family</p>
<p>99215 - Office or other outpatient visit for the evaluation and management of an established patient, which requires at least 2 of these 3 key components: A comprehensive history; A comprehensive examination; Medical decision making of high complexity. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs, usually the presenting problem(s) are of moderate to high severity, typically 40 minutes are spent face to face with the patient and/or family.</p>
<p>99217 - Observation care discharge day management (this code is to be utilized to report all services provided to a patient on discharge from "Observation status" if the discharge is on other then the initial date of "Observation status". To report services to a patient designated as "Observation status" or "Inpatient status" and discharged on the same date, use the codes for observation or inpatient care services (including admission and discharge services 99234-99236 as appropriate).</p>
<p>99218 - Initial observation care, per day, for the evaluation and management of a patient which requires these 3 key components: A detailed or comprehensive history; A detailed or comprehensive examination; and medical decision making that is straight forward or of low complexity. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the problem(s) requiring admission to "Observation status" are of low severity. Typically 30 minutes are spent face to face at the bedside and on the patient's hospital floor or unit.</p>

<p>99219 - Initial observation care, per day, for the evaluation and management of a patient which requires these 3 key components: A comprehensive history; A comprehensive examination; and medical decision making of moderate complexity. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the problem(s) requiring admission to "Observation status" are of moderate severity. Typically 50 minutes are spent face to face at the bedside and on the patient's hospital floor or unit.</p>
<p>99220 - Initial observation care, per day, for the evaluation and management of a patient which requires these 3 key components: A comprehensive history; A comprehensive examination; and medical decision making of high complexity. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the problem(s) requiring admission to "Observation status" are of high severity. Typically 70 minutes are spent face to face at the bedside and on the patient's hospital floor or unit.</p>
<p>99224 - Subsequent observation care, per day, for the evaluation and management of an established patient, which requires at least 2 of these 3 key components: Problem focused interval history; Problem focused interval examination; Medical decision making that is straight forward or of low complexity. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the patient is stable, recovering or improving, typically 15 minutes are spent at the bedside and on the patient's hospital floor or unit.</p>
<p>99225 - Subsequent observation care, per day, for the evaluation and management of an established patient, which requires at least 2 of these 3 key components: An expanded problem focused interval history; An expanded problem focused interval examination; Medical decision making of moderate complexity. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the patient is responding inadequately to therapy or has developed a minor complication. Typically 25 minutes are spent at the bedside and on the patient's hospital floor or unit.</p>
<p>99226 - Subsequent observation care, per day, for the evaluation and management of an established patient, which requires at least 2 of these 3 key components: A detailed interval history; A detailed examination; Medical decision making of high complexity. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the patient is unstable or has developed a significant complication or significant new problem. Typically 35 minutes are spent at the bedside and on the patient's hospital floor or unit.</p>
<p>99304 - Initial nursing facility care, per day, for the evaluation and management of a patient which requires these 3 key components: A detailed or comprehensive history; A detailed or comprehensive examination; and medical decision making that is straight forward or of low complexity. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the problem(s) requiring admission are of low severity. Typically 25 minutes are spent face to face at the bedside and on the patient's facility floor or unit.</p>
<p>99305 - Initial nursing facility care, per day, for the evaluation and management of a patient which requires these 3 key components: A comprehensive history; A comprehensive examination; and medical decision making of moderate complexity. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the problem(s) requiring admission are of moderate severity. Typically 35 minutes are spent face to face at the bedside and on the patient's facility floor or unit.</p>
<p>99306 - Initial nursing facility care, per day, for the evaluation and management of a patient which requires these 3 key components: A comprehensive history; A comprehensive examination; and medical decision making of high complexity. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the problem(s) requiring admission are of high severity. Typically 45 minutes are spent face to face at the bedside and on the patient's facility floor or unit.</p>
<p>99307 - Subsequent nursing facility care, per day, for the evaluation and management of an established patient, which requires at least 2 of these 3 key components: Problem focused interval history; Problem focused examination; Straight forward medical decision making. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the patient is stable, recovering or improving. Typically, 10 minutes are spent at the bedside and on the patient's facility floor or unit.</p>

<p>99308 - Subsequent nursing facility care, per day, for the evaluation and management of an established patient, which requires at least 2 of these 3 key components: An expanded problem focused interval history; An expanded problem focused examination; Medical decision making of low complexity. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the patient is responding inadequately to therapy or has developed a minor complication. Typically 15 minutes are spent at the bedside and on the patient's facility floor or unit.</p>
<p>99309 - Subsequent nursing facility care, per day, for the evaluation and management of an established patient, which requires at least 2 of these 3 key components: A detailed interval history; A detailed interval examination; Medical decision making of moderate complexity. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the patient has developed a significant complication or a significant new problem. Typically 25 minutes are spent at the bedside and on the patient's facility floor or unit.</p>
<p>99310 - Subsequent nursing facility care, per day, for the evaluation and management of an established patient, which requires at least 2 of these 3 key components: A comprehensive interval history; A comprehensive examination; Medical decision making of moderate complexity. Counseling and/or coordination of care with other physicians, other healthcare professionals or agencies are provided consistent with the nature of the problem(s) and the patients and/or family needs. The patient may be unstable or may have developed a significant new problem requiring immediate Physician attention. Typically 35 minutes are spent at the bedside and on the patient's facility floor or unit.</p>
<p>99315 - Nursing facility discharge day management; 30 minutes or less</p>
<p>99365 - Nursing facility discharge day management; more than 30 minutes</p>
<p>99318 - Evaluation and Management of a patient involving an annual nursing facility assessment, which requires these 3 key components: A detailed interval history; A comprehensive examination; and medical decision making of low to moderate complexity. Counseling and/or coordination of care with other physicians, other qualified health care professionals or agencies are provider consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the patient is stable, recovering or improving. Typically, 30 minutes are spent at the bedside on the patient's facility floor or unit.</p>
<p>99324 - Domiciliary or rest home visit for the evaluation and management of a new patient, which requires these 3 key components: A problem focused history; A problem focused examination; and straight forward medical decision making. Counseling and/or coordination of care with other physicians, other qualified health care professionals or agencies are provider consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the presenting problem(s) are of low severity. Typically, 20 minutes are spent with the patient and/or family or caregiver.</p>
<p>99325 - Domiciliary or rest home visit for the evaluation and management of a new patient, which requires these 3 key components: An expanded problem focused history; An expanded problem focused examination; and medical decision making of low complexity. Counseling and/or coordination of care with other physicians, other qualified health care professionals or agencies are provider consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the presenting problem(s) are of moderate severity. Typically, 30 minutes are spent with the patient and/or family or caregiver.</p>
<p>99326 - Domiciliary or rest home visit for the evaluation and management of a new patient, which requires these 3 key components: A detailed history; A detailed examination; and medical decision making of moderate complexity. Counseling and/or coordination of care with other physicians, other qualified health care professionals or agencies are provider consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the presenting problem(s) are of moderate to high severity. Typically, 45 minutes are spent with the patient and/or family or caregiver.</p>
<p>99327 - Domiciliary or rest home visit for the evaluation and management of a new patient, which requires these 3 key components: A comprehensive history; A comprehensive examination; and medical decision making of moderate complexity. Counseling and/or coordination of care with other physicians, other qualified health care professionals or agencies are provider consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the presenting problem(s) are of high severity. Typically, 60 minutes are spent with the patient and/or family or caregiver.</p>

<p>99328 - Domiciliary or rest home visit for the evaluation and management of an established patient, which requires these 3 key components: A comprehensive history; A comprehensive examination; and medical decision making of high complexity. Counseling and/or coordination of care with other physicians, other qualified health care professionals or agencies are provider consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the patient is unstable or has developed a significant new problem requiring immediate Physician attention.. Typically, 75 minutes are spent with the patient and/or family or caregiver.</p>
<p>99334 - Domiciliary or rest home visit for the evaluation and management of a new patient, which requires at least 2 of these 3 key components: A problem focused interval history; A problem focused examination; Straight forward medical decision making. Counseling and/or coordination of care with other physicians, other qualified health care professionals or agencies are provider consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the presenting problem(s) are self-limited or minor. Typically, 15 minutes are spent with the patient and/or family or caregiver.</p>
<p>99335 - Domiciliary or rest home visit for the evaluation and management of an established patient, which requires at least 2 of these 3 key components: An expanded problem focused interval history; An expanded problem focused examination; Medical decision making of low complexity. Counseling and/or coordination of care with other physicians, other qualified health care professionals or agencies are provider consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the presenting problem(s) are of low to moderate complexity. Typically, 25 minutes are spent with the patient and/or family or caregiver.</p>
<p>99336 - Domiciliary or rest home visit for the evaluation and management of an established patient, which requires at least 2 of these 3 key components: A detailed interval history; A detailed examination; and medical decision making of moderate complexity. Counseling and/or coordination of care with other physicians, other qualified health care professionals or agencies are provider consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the presenting problem(s) are of moderate to high severity. Typically, 40 minutes are spent with the patient and/or family or caregiver.</p>
<p>99337 - Domiciliary or rest home visit for the evaluation and management of an established patient, which requires 2 of these 3 key components: A comprehensive interval history; A comprehensive examination; and medical decision making of moderate to high complexity. Counseling and/or coordination of care with other physicians, other qualified health care professionals or agencies are provider consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the presenting problem(s) are of moderate to high severity. The patient may be unstable or may have developed a significant new problem requiring immediate Physician attention. Typically, 60 minutes are spent with the patient and/or family or caregiver.</p>
<p>99341 - Home visit for the evaluation and management of a new patient, which requires these 3 key components: A problem focused history; A problem focused examination; and straight forward medical decision making. Counseling and/or coordination of care with other physicians, other qualified health care professionals or agencies are provider consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the presenting problem(s) are of low severity. Typically, 20 minutes are spent face to face with the patient and/or family</p>
<p>99342 - Home visit for the evaluation and management of a new patient, which requires these 3 key components: An expanded problem focused history; An expanded problem focused examination; and medical decision making of low complexity. Counseling and/or coordination of care with other physicians, other qualified health care professionals or agencies are provider consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the presenting problem(s) are of moderate severity. Typically, 30 minutes are spent face to face with the patient and/or family.</p>
<p>99343 - Home visit for the evaluation and management of a new patient, which requires these 3 key components: A detailed history; A detailed examination; and medical decision making of moderate complexity. Counseling and/or coordination of care with other physicians, other qualified health care professionals or agencies are provider consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the presenting problem(s) are of moderate to high severity. Typically, 45 minutes are spent face to face with the patient and/or family.</p>
<p>99344 - Home visit for the evaluation and management of a new patient, which requires these 3 key components: A comprehensive history; A comprehensive examination; and medical decision making of moderate complexity. Counseling and/or coordination of care with other physicians, other qualified health care professionals or agencies are provider consistent with the nature of the problem(s) and the patients and/or family needs. Usually, the presenting problem(s) are of high severity. Typically, 60 minutes are spent face to face with the patient and/or family.</p>
