Aetna is the brand name used for products and services provided by one or more of the Aetna group of subsidiary companies (Aetna).
You’ve told us what’s important to you. As a result, we developed this manual to help you navigate the often challenging world of health care.

Whether you’re new to Aetna or have participated with us for years, we believe you’ll find the office manual helpful in your day-to-day work. It contains meaningful information that makes it easier for you to work with us more effectively and efficiently. Topics range from how to get claims paid faster to learning how to reduce administrative burdens. We designed the office manual to give you more time to focus on what’s most important to you — improving the health and well-being of your patients.

If you’re new to Aetna’s network

We have tools and resources to introduce you to working with Aetna. These include:

• **Aetna at a Glance:** This quick reference guide will help you learn about various tools and transactions. It also contains important contact information.

• **Aetna Benefits Products booklet:** This easy-to-use handbook contains information on Aetna benefits products, including primary care physician (PCP) selection, referral requirements and precertification instructions.

To find these tools, go to Provider Manuals.

Local network information

Regulations and Aetna program requirements may vary from state to state, so the regional information section includes some market-specific information. The key national contacts and regional information sections provide access to important contacts, including website addresses and telephone and fax numbers.

Information you need to know

We also recommend you learn more about the following topics:

• **Provider website:** You’ll notice the term provider website used throughout the office manual. You can perform most electronic transactions through this website. That includes submitting claims, checking patient benefits and eligibility, requesting precertifications, making edits to existing authorizations and submitting clinical attachments. You have to register to use the website.

• **Patient advocacy:** As advocates on behalf of your patients who are Aetna plan members, you should review and become familiar with the member rights and responsibilities outlined in the office manual.

• **Informed consent:** You’re responsible for providing your patients with all the information relevant to their conditions. This includes all health care alternatives, including potential risks and benefits, even if their plan doesn’t cover the option.

• **Patient emergencies:** If your Aetna patients need emergency care, they have coverage 24 hours a day, 7 days a week, anywhere in the world.

• **Providing information:** By providing us with complete and accurate medical information and diagnoses, you help us make appropriate coverage determinations.

• **Independent contractors:** As indicated in our physician agreements, participating health care professionals are not employees or agents of Aetna or any of our affiliates.

• **Guidance on coverage:** If you’re unsure whether a particular service or treatment is considered medically necessary or experimental/investigational under a patient’s plan, consult our Clinical Policy Bulletins.

• **Appeals:** You can appeal adverse benefits determinations and physician or other health care professional adverse reimbursement decisions. Members may have the right to an external review if the circumstances of the appeal meet the criteria for external review. Medicare appeals will follow the guidelines set by the Centers for Medicare & Medicaid Services (CMS).

• **Products:** We use the following product groupings throughout the office manual to simplify references to the variety of benefits plans. (Not all products are available in all areas.)

**Note:** The term “precertification” (used here and throughout the office manual) means the utilization review process to determine if a requested service, procedure, prescription drug or medical device meets our clinical criteria for coverage. It does not mean precertification as defined by Texas law, as a reliable representation of payment of care or services to fully insured health maintenance organization (HMO) and preferred provider organization (PPO) members.
**PCP selection and referral required with some direct access options**

Aetna Medicare℠ Plan (HMO) (available in select markets)
Aetna Select℠ Plan
Elect Choice® exclusive provider organization (EPO)

Behavioral health

Check out information on the Behavioral Health page at aetna.com. There you’ll find:

• Our comprehensive Behavioral Health Provider Manual
• Archived issues of our Aetna Behavioral Health Insights™ newsletter for participating behavioral health professionals
• Aetna Behavioral Health Programs overview
• Utilization Management and how we determine coverage

Aetna has adopted the following behavioral health clinical practice guidelines:

• ADHD: Clinical Practice Guideline for the Diagnosis, Evaluation and Treatment of Attention-Deficit/Hyperactivity Disorder in Children and Adolescents
• Centers for Disease Control (CDC) guideline for Prescribing Opioids for Chronic Pain
• Helping Patients Who Drink Too Much
• Treating Patients with Major Depressive Disorder

For a copy of a specific guideline, call our Provider Service Center at 1-888-632-3862 or check our Behavioral Health Provider Manual. There are several other behavioral health guidelines to help support your patient care decisions on the American Psychiatric Association (APA) website.

Electronic solutions

Overview

Electronic solutions for provider offices and facilities
From the time an Aetna member schedules an appointment through claims payment, we’re committed to making it easy for your office or practice to work with us electronically.

Take advantage of our suite of electronic transactions and increase your office’s efficiency. Below we highlight key features and benefits of our available electronic transactions.

Working directly with Aetna:
Transactions overview

Eligibility and benefits inquiry
Our eligibility and benefits inquiry transaction enables you to request patient eligibility status quickly and easily.
• Verify member eligibility and demographics.
• Find detailed financial information, including deductible, copayment and coinsurance for individual and family levels.

Payment Estimator

Our Payment Estimator® transaction enables you to request estimates for patients on, or prior to, the date of service.
• Learn Aetna’s estimated payment amount.
• Get reliable estimates of patient copayments, coinsurance and deductibles.
• Access printable information to help you initiate financial discussions with patients prior to, or at the time of care.
• Reduce, and potentially eliminate, after-the-fact financial surprises for you and your patients.

*Payment Estimator does not apply to any Medicare Advantage plans.

Note: If you perform transactions through a vendor other than our provider website on NaviNet®, functionality may vary.
Precertification add, inquiry, and update capabilities
Our precertification add and inquiry transactions are quick, easy ways to request or check the status of a precertification.

- Availability for all Aetna benefits plans 24 hours a day, Monday through Saturday.
- Minimal wait time for initial responses.
- Ability to determine if medical precertification is required via precertification code search tool.
- Precertification inquiry lets you confirm whether a valid precertification is present.
- Ability to check the status of previously submitted requests.
- Ability to make an update to a precertification prior to the date of service.
- Ability to submit clinical attachments.

Referral add and inquiry
Referral add and referral inquiry transactions are quick, easy ways to request or check the status of a referral.

- Request referral authorization.
- Inquire about the status of a referral.
- Use for any Aetna plans that require a referral.

Claims submission
You can submit professional claims for free and get reimbursed faster than submitting paper claims.

- Receive an automatic acknowledgement for all submitted claims.
- Ability to submit coordination of benefits claims electronically.

Rules for electronic submission
Provider will submit all claims electronically using the Health Insurance Portability and Accountability Act (HIPAA)-required ASC X12N 837 — Health Care Claim: Professional for professional claims and the ASC X12N 837 — Health Care Claim: Institutional for institutional claims or an industry standard successor format (“Electronic Claim”).

Provider will use the electronic real time HIPAA compliant transactions, including but not limited to: eligibility, precertification and claim status inquiry transactions.

Claims status transactions
Our claims status transactions allow you to check on the status of submitted claims.

- Use the claims status inquiry for single member inquiries.
- Use the claims status report to review multiple claims over a designated time period.
- Request financial status as a follow-up to both claims status inquiry and report to provide additional financial details.

Electronic funds transfer (EFT)
EFT allows you to discontinue paper checks and get your payments up to a week faster.

- Save paper and manage your business effectively with a convenient audit trail.
- Sign up to receive emails when payments have been transmitted to your bank.

Online claim Explanation of Benefits (EOB)
Through Aetna’s provider website, you can eliminate even more paper by accessing your EOBs online.

- Access EOBs online 7 days a week, within 24 hours of claims processing.
- View, download and save as a PDF or print EOBs, as needed.
- Receive notification when EOBs become available.
- EOB activity page allows multiple search criteria to access all available EOBs.

Electronic remittance advice (ERA)
Our ERA transaction provides EOB information electronically.

- Automate your posting processes.
- Receive separate ERAs for the same tax ID number for all associated billing addresses and National Provider Identifiers (NPIs).

Working through clearinghouse vendors: Transactions by vendor
Learn more about our various electronic transactions, connectivity options and web-enabled products on our website.

View a listing of our electronic vendors and the transactions they support.

Note: The term “precertification” (used here and throughout the office manual) means the utilization review process to determine if a requested service, procedure, prescription drug or medical device meets our clinical criteria for coverage. It does not mean precertification as defined by Texas law, as a reliable representation of payment of care or services to fully insured HMO and PPO members.
**Medicare**

**Aetna Medicare Advantage plans (HMO and PPO)**

Aetna contracts with the Centers for Medicare & Medicaid Services (CMS) to offer Medicare Advantage (MA) plans. As such, we’re considered a Medicare Advantage organization (MAO). All MA plans are required to offer Medicare Parts A and B medical benefits and to follow CMS’ national and local coverage decisions. MA plans may also offer Medicare Part D benefits (MA-PD).

We offer both individual and employer group-sponsored MA products. The **Aetna Medicare HMO plans** are available in select counties and states throughout the country. **Aetna Medicare PPO plans** are available to individuals in select counties and states throughout the country and for employer groups in all 50 states, plus the District of Columbia.

For specific Aetna Medicare plan information, visit the Medicare product page on our [provider website](#). Individuals may choose from several Aetna Medicare Advantage plans, depending on their location, budget and needs. To see the plans available within a specific geographic area, refer to information posted on our Medicare public website at [aetnamedicare.com](#).

**Aetna Medicare HMO plan** members are required to receive all covered services, with the exception of emergent or urgently needed services and out-of-area renal dialysis, through Aetna Medicare network providers. The Aetna Medicare Plan (HMO) requires members to select a participating PCP and, except for those benefits described in the member’s plan documents as direct-access benefits and emergency or urgent care, members must have a referral from their PCP to obtain covered specialty services or care in a facility.

In select service areas, the individual Aetna Medicare Plan (HMO) includes an open-access feature that does not require PCP selection or referrals for in-network covered services. Some employer group plans may also offer this feature.

**Aetna Medicare PPO plan** members are not required to select a PCP or obtain a referral in order to obtain services from participating providers. Generally, members who select a PCP are responsible to pay the PCP copayment for covered services received from their designated PCP. Aetna Medicare Plan (PPO) members also have the option to receive covered services from any nonparticipating provider for covered services without a referral. If exercising this option, the member is responsible for the cost of his or her out-of-network medical expenses in accordance with their plan.
In addition, CMS provides an Employee Group Waiver Plan that permits an MAO to extend enrollment to all retirees of an employer group, even if some of the retirees reside in a service area where Aetna does not offer a provider network that meets CMS network requirements (“Extended Service Area”). To use this waiver, at least 51 percent of members enrolled in the employer group MA plan must reside in a service area where Aetna offers a provider network that meets CMS requirements. And members who reside in an Extended Service Area must be permitted to obtain all covered services from nonparticipating providers at the in-network level of cost sharing.

Sample member ID cards
To see a sample of our Medicare Advantage member ID cards, refer to the Medicare product page on our provider website.

Home assessment program
As part of our ongoing quality improvement efforts, we periodically offer in-home health assessments to our Medicare Advantage members. It’s possible your patients may be asked to participate in this free, comprehensive assessment. The assessment is strictly voluntary. It will be performed in the patient’s home by a licensed provider. If one of your patients is selected to participate in this program, the completed assessment will be mailed to you.

We’ll use information from the assessment to identify medical management/care management programs which may benefit the member. If you have questions about the home assessment program, contact your local provider relations representative for more information.

Quality improvement program
An annual Chronic Care Improvement Program (CCIP) and Quality Improvement Project (QIP) are implemented in accordance with CMS requirements. These quality improvement programs are designed and conducted to coordinate care, promote quality and help improve member satisfaction.

The goal of the CCIP is to promote effective management of chronic disease and improve health outcomes and quality of care. Programs are available to support your patients and to help them make healthy lifestyle choices.

The goal of the QIP is to help improve health outcomes, member satisfaction and quality of care. Programs are available to encourage your patients to get the care they need.

Medicare prescription drug plans
Our stand-alone prescription drug plan (PDP) portfolio of products is referred to as the Aetna Medicare Rx® (PDP) plan. We offer three different PDP plan options to individuals on a national basis. Medicare prescription drug benefits are also offered to individuals through our MA plans that include Medicare prescription drug coverage (MA-PD plans) in select service areas. In addition, we offer Medicare prescription drug coverage through PDPs and MA-PD plans to employer groups; group plans are available nationwide.

MA-PD plans and PDPs must meet applicable benefits requirements under the Medicare Part D program and, as of 2018, at a minimum, these plans must contain the following provisions:

• Deductible, not to exceed $405 for 2018.
• Coverage gap: Once a member reaches $3,750 in covered Medicare Part D drug expenses, he or she will pay no more than 44 percent for covered generics and 35 percent for covered brand drugs, including a manufacturer discount of up to 50 percent off covered brand drug costs until reaching the True Out-of-Pocket (TrOOP) threshold of $5,000. Most individual and group Aetna PDP and MA-PD plans provide supplemental gap coverage.

Note: The previous description is not applicable to members who qualify for Low-Income Subsidy assistance.

• Catastrophic coverage level: For 2018, once a member reaches $5,000 in TrOOP costs for covered Part D drugs, the member’s maximum cost sharing for covered Part D drugs will be the greater of 5 percent or $3.35 for generic drugs (or those prescription drugs treated like generic), or $8.35 for all other prescription drugs.
• Quantity limits, step therapy and precertification requirements apply to certain prescription drugs.
• Formulary: The Aetna Medicare prescription drug formularies (also known as the “Aetna Medicare Preferred Drug List”) differ from the formularies applicable to Aetna’s commercial pharmacy plans. The Medicare prescription drug formularies can be found at:
  - Individual MA-PD Plan and PDP members: aetnamedicare.com/formulary
  - Group MA-PD Plan and PDP members: Visit our retiree plans website at aetnaretireeplans.com, then select “Manage your prescription drugs.”

Note: All formularies applicable to Aetna’s MA-PD plans and PDPs are reviewed and approved by CMS.

Transition-of-coverage (TOC) policy
CMS requires Part D plan sponsors, like Aetna, to have an appropriate TOC process. Members who are taking Part D drugs that are not on the plan’s formulary or that are subject to utilization management requirements can get a transition supply of their drug in certain circumstances. This gives members the opportunity to work with their doctor to complete a successful transition and avoid disruption in their treatment.

Aetna Medicare has established a TOC process in accordance with CMS requirements that applies to new members as well as current members who remain enrolled in their Aetna Medicare plan from one plan year to the next.
The following is a summary of the key features of Aetna Medicare’s TOC process:

Newly enrolled members who are taking a Part D drug that is not on the Aetna Medicare formulary, or is subject to a utilization management requirement or limitation (such as step therapy, preauthorization or a quantity limit), are entitled to receive a maximum of a 30-day supply of the Part D drug within the first 90 days of their enrollment. (The period of time in which they are entitled to receive the transition supply is called their “transition period.”)

Existing members who renew their Aetna Medicare coverage and are taking a Part D drug that is removed from the formulary, or is subject to a new utilization requirement or limitation at the beginning of the new plan year, are entitled to receive a maximum 30-day supply during their transition period. For existing members who renew their Aetna Medicare coverage from one year to the next, their transition period is the first 90 days of the new plan year.

Whether an individual is a new or renewing member, if the member’s initial prescription is for less than the full transition amount (30 days), the member can get multiple fills up to the 30-day supply.

If a member lives in a long-term care facility and is entitled to a transition supply, Aetna will cover a 31-day supply (unless the prescription is for fewer days) and will also honor refills, up to a maximum of a cumulative 98-day supply, during the member’s transition period. Members may also be entitled to receive a transition fill outside of their transition period in certain circumstances.

Aetna sends a TOC notice to members via first-class mail within three business days from the date the transition fill claim is processed. The letter:

- Notifies members that the transition fill was a temporary supply
- Describes the options available to the member if the drug for which they received the transition fill is not on the formulary or is subject to a utilization management requirement or restriction (including changing to a therapeutic alternative, or seeking an exception or prior authorization, as appropriate)
- Describes the procedures for requesting an exception or prior authorization
- Encourages members to work with their doctor to achieve a successful transition so they can continue to receive coverage for the drugs they need

A duplicate copy of the notice is sent to the prescribing physician.

You can view Transition rules for our Medicare Prescription Drug process. At aetnamedicare.com, go to Aetna Medicare Plans > Aetna Medicare Rx (PDP) > Find Prescriptions > Please select a plan year > Public notice. There you’ll find PDFs describing the process.

Additional prescription drug plan information

- **Days supply:** Generally, a 1-month prescription may be filled for up to a 30-day supply. A member may obtain up to a 3-month (90-day) supply of maintenance medications from either a participating retail pharmacy or through a participating mail-order vendor.

- **Mail-order drug option:** A member may obtain up to a 90-day supply of maintenance medications from our preferred Aetna Rx Home Delivery® mail-order pharmacy.

Specialty pharmacies fill high-cost specialty medications that require special handling. Although specialty pharmacies may deliver covered medications through the mail, they are not considered “mail-order pharmacies.” Therefore, most specialty drugs are not available at the mail-order cost share. In 2014, CMS instituted a new feature that allows PDP and MA-PD plan members in some instances to pay prorated cost sharing for prescriptions written for less than a 30-day supply. For example, prorated cost sharing may apply when an initial prescription is written for a short supply to assure the member can tolerate the drug, or when a member wishes to synchronize their prescriptions to fill on the same day. However, limitations apply to this plan feature. For example, prepackaged drugs cannot be broken, and this new plan feature does not apply to antibiotics and some other drugs.

**Preferred pharmacies**

Most of our plans give members access to our preferred pharmacy network.

Our members generally pay less when they fill their prescription at one of our preferred pharmacies.

All of our network pharmacies must meet strict discount standards. But preferred pharmacies offer us even bigger discounts. And we pass those discounts on to our members, in the form of lower cost sharing.

Preferred pharmacies are identified with a circled “P” in our directories.

Here are three general rules that apply to prescription drug coverage under Medicare Part D:

- Medicare Part D cannot provide coverage for a drug that would be covered under Medicare Part A or Part B.
- Medicare Part D cannot provide coverage for a drug that is purchased and/or consumed outside the United States and its territories.
- Medicare Part D usually cannot provide coverage for “off-label use.” Generally, coverage for “off-label use” is allowed under Medicare Part D only when the use is supported by the following reference books: the American Hospital Formulary Service Drug Information, the DRUGDEX Information System and the USP DI or its successor.

Also, by law, the following categories of drugs are not covered by Medicare Part D unless enhanced drug coverage is included/offered under a particular Medicare Part D plan/benefit:

- Nonprescription drugs (also called over-the-counter drugs)
- Drugs when used to promote fertility
- Drugs when used for the relief of cough or cold symptoms
- Drugs when used for cosmetic purposes or to promote hair growth
Affordable Quality Healthcare directory. Aetna uses vendors (currently the Council for request validation of their demographic information listed in our every Medicare Advantage Organization (MAO) to perform The Centers for Medicare & Medicaid Services (CMS) requires Medicare requirements that apply to contracted providers. What follows is a general summary of some further information regarding these Medicare contractual contractors and subcontractors) contracted with a Medicare advantage organization (“contracted providers”) must comply with various requirements. Refer to your Aetna contract for and health care professionals (and their employees, independent As outlined in Medicare laws, rules and regulations, physicians and health care professionals (and their employees, independent contractors and subcontractors) contracted with a Medicare Advantage organization (“contracted providers”) must comply with various requirements. Refer to your Aetna contract for further information regarding these Medicare contractual requirements. What follows is a general summary of some Medicare requirements that apply to contracted providers.

**Note:** Most injectable medications and oral drugs not covered under Medicare Part B will be considered Medicare Part D drugs, but coverage will be determined by the formulary. Precertification is required for Medicare Part B situational drugs. If you have questions regarding whether a medication is covered under Medicare Part B versus Medicare Part D, contact the Aetna Pharmacy Management Precertification unit at 1-800-414-2386 for assistance.

### Additional important Aetna Medicare information

As outlined in Medicare laws, rules and regulations, physicians and health care professionals (and their employees, independent contractors and subcontractors) contracted with a Medicare Advantage organization (“contracted providers”) must comply with various requirements. Refer to your Aetna contract for further information regarding these Medicare contractual requirements. What follows is a general summary of some Medicare requirements that apply to contracted providers.

**Demographic data quarterly attestation**

The Centers for Medicare & Medicaid Services (CMS) requires every Medicare Advantage Organization (MAO) to perform quarterly outreach to every MAO-contracted provider and request validation of their demographic information listed in our directory. Aetna uses vendors (currently the Council for Affordable Quality Healthcare® and Availity®) to make this outreach each quarter, and you are obligated, as a Medicare Advantage provider, to comply with this validation. Failure to respond and validate your information will result in us suppressing your information from our directory. Suppressing your information means patients and other providers will not see your listed as a participating provider in the Aetna directory and could result in your practice losing patients/revenue.

If you move your office or change your phone number or other demographic information, you should go to the website for our vendor and update your profile within seven days of the change. Please do not wait for the quarterly attestation process, and do not call or fax the information to Aetna. We will get the update from the vendor and process it accordingly.

Please cooperate fully with the validation/attestation requests from our vendors within the allotted time frame by signing into their website and completing the attestation questions about your demographic information. We take this compliance obligation very seriously and will take action against providers who refuse to cooperate, including suppression and ultimately the termination of participation in our Medicare Advantage plans.

**Collecting all Medicare Advantage (MA) plan member cost sharing**

CMS reviews and approves all MA benefits packages. The statutes, regulations, policy guidelines and requirements in the Medicare Managed Care Manual and other CMS instructions are the basis for these reviews and approvals. To comply, MA organizations must be sure that its MA plans do not discriminate in the delivery of health care services, including source of payment. The rules regarding collection of Medicare beneficiary cost-share amounts applicable in traditional Medicare apply to Medicare Advantage as well. Therefore, providers must collect all applicable cost-share amounts from Aetna MA plan members. To waive the cost share is a direct violation of federal laws and regulations. This action puts Aetna and your compliance at risk.

**Access to facilities and records**

Medicare laws, rules and regulations require that contracted providers retain and make available all records pertaining to any aspect of services furnished to MA plan members or their contract with the MAO for inspection, evaluation and audit for the longer of: (1) a period of 10 years from the end of the contract period of any Aetna Medicare contract, or (2) the date the Department of Health and Human Services or the Comptroller General or their designees complete an audit, or (3) the period required under applicable laws, rules and regulations.

**Access to services**

We have established programs and procedures to:

- Identify members with complex or serious medical conditions
- Work in conjunction with the member’s physician, who is responsible for directing and managing his or her patients’ care, assessing those conditions, and using medical procedures to diagnose and monitor patients on a ongoing basis
- Establish a treatment plan with an adequate number of direct-access visits to specialists (that is, no prior authorization required) to implement the treatment plan

In addition, as provided in applicable laws, rules and regulations, contracted providers are prohibited from discriminating against any Medicare member based on health status. Therefore, Aetna’s contracted providers are required to make services available in a culturally competent manner to all MA plan members, including those with limited English proficiency or reading skills, diverse cultural and ethnic backgrounds, and physical or mental disabilities. In turn, Aetna maintains procedures to inform members with specific health care needs of follow-up care and provide training in self-care, as necessary.
Medicare Medical Loss Ratio (MLR) requirements

Congress, under the Affordable Care Act, amended the MA program provisions in the Social Security Act to require MAOs to achieve an 85 percent MLR beginning with contract year 2014. CMS issued regulations to implement these MLR requirements that include new maintenance and access to records obligations.

These new requirements apply to any provider contracted with an MAO to participate in their Medicare network that retains medical/drug cost data that the MAO uses to calculate Medicare MLRs for which the MAO does not have independent access. Under these new regulations, MAOs “are required to maintain evidence of the amounts reported to CMS and to validate all data necessary to calculate MLRs” for 10 years from the date such calculations were reported to CMS.

Additionally, the MAO “must require any third-party vendor supplying drug or medical cost contracting and claim adjudication services” to provide the MAO with “all underlying data associated with MLR reporting ... regardless of current contractual limitations.” If this MA regulation is applicable to a participating provider, the provider is required to do both of the following:

- Ensure that they are retaining such data for the requisite time period (11 years from the CMS MLR reporting date, not the termination of the CMS contract, as referenced in existing MA regulations)
- Preserve the MAO’s and government’s ability to obtain data and records, as necessary, to satisfy any government information request during the 11-year period

Advance directives

Our contracted providers must document in a prominent place in an MA plan member’s medical record whether the member has executed an advance directive. Refer to the member rights and responsibilities section for more information on advance directives.

MA organization determination (OD) process

Medicare beneficiaries enrolled in MA plans are entitled to request an OD, which is a decision/determination concerning the rights of the member with regard to services covered by Medicare and/or Aetna, and any decision/determination concerning the following items:

- Reimbursement for coverage of emergency, urgently needed services or post-stabilization care
- Payment for any other health services furnished by a provider or supplier other than the organization that the member believes are Medicare covered or, if not covered by Original Medicare, should have been furnished, arranged for or reimbursed by the organization
- Denial of coverage of an item or service the member has not received but believes should be covered
- Discontinuation of coverage of a service, if the member disagrees with the determination that the coverage is no longer medically necessary

Members can request an expedited or standard organization determination decision. Aetna will review and process the request in accordance with the CMS requirements and time frames. If the member’s request is denied, the member may exercise his or her appeal rights.

Ban of Advance Beneficiary Notice of Noncoverage (ABN) for MA

Provider organizations should be aware that an ABN is not a valid form of denial notification for an MA member. ABNs, sometimes referred to as “waivers,” are used in the Original Medicare program. However, ABNs cannot be used for patients enrolled in Aetna Medicare Advantage plans, as CMS prohibits use of ABNs for members enrolled in a Medicare Advantage plan.

As a provider who has elected to participate in the Medicare program, you should understand which services are covered by original Medicare and which are not. Aetna Medicare Advantage plans are required to cover everything that Original Medicare covers, and in some instances may provide coverage that is more generous or otherwise goes beyond what is covered under Original Medicare.

As an Aetna Medicare contracted provider, you are expected to understand what is covered under Aetna Medicare Advantage plans. CMS mandates that providers who are contracted with a Medicare Advantage plan, such as Aetna, are not permitted to hold a Medicare Advantage member financially responsible for payment of a service not covered under the member’s Medicare Advantage plan unless that member has received a pre-service OD notice of denial from Aetna before such services are rendered. If the member does not have a pre-service OD notice of denial from Aetna on file, you must hold the member harmless for the non-covered services. You must not charge the member any amount beyond the normal cost-sharing amounts (i.e., copayments, coinsurance and/or deductibles).

However, if a service is never covered under Original Medicare or is listed as a clear exclusion in the member’s plan materials, you can hold the member financially liable without a pre-service OD. However, you cannot hold a member financially liable for services or supplies that are only covered when medically necessary unless you go through the OD process. Members cannot be expected to know when a service is medically necessary and when it is not.

Providers and members can initiate pre-service ODs. You must go through this process to determine if the requested/ordered service is covered prior to a member receiving it, or prior to scheduling a service such as a lab test, diagnostic test or procedure. The procedure to request a pre-service OD is similar to the procedure to request a prior authorization. Please call the number on the back of the member’s ID card and ask for a pre-service OD to determine if the service will be covered for the member. Once Aetna makes a determination, the member will be notified of the decision. You will only be able to charge the member for the service if the member has already received the decision from Aetna before you render the services in question to the member.

Medicare PDP coverage determinations and exceptions process

Medicare beneficiaries enrolled in PDPs have the right to request a coverage determination concerning the prescription drug coverage they’re entitled to receive under their plan, including:

- Basic prescription drug coverage and supplemental benefits
- The amount, including cost sharing, if any, that the member is required to pay for a drug
An adverse coverage determination constitutes any unfavorable decision made by or on behalf of Aetna regarding coverage or payment for prescription drug benefits a member believes he or she is entitled to receive.

The following actions are considered coverage determinations:

- A decision not to provide or pay for a prescription drug that the member believes should be covered by the plan (this includes a decision not to pay because the drug is not on the plan’s formulary, is determined to not be medically necessary, is furnished by an out-of-network pharmacy, or Aetna determines is otherwise excluded under section 1862(a) of the Social Security Act if applied to Medicare Part D)
- The failure to provide a coverage determination in a timely manner when a delay would adversely affect the health of the member
- A decision concerning an exceptions request for a plan’s tier cost-sharing structure
- A decision concerning an exceptions request involving a nonformulary drug
- A decision on the amount of cost sharing for a drug

We have both standard and expedited procedures in place for making coverage determinations.

Exceptions process
The exceptions process can be initiated for the following situations:

- Requests for exceptions involving a nonformulary Part D drug
- Requests for exceptions to a plan’s tiered cost sharing

A decision by a Part D plan sponsor concerning an exceptions request constitutes a coverage determination; therefore, all of the applicable coverage determination requirements and time frames apply.

The member, his or her appointed representative or the prescribing physician can submit an exceptions request either orally or in writing by contacting us at:

- Phone: 1-800-414-2386
- Fax: 1-800-408-2386

Medicare coverage determinations and exception requests have a strict turnaround time for completion. It is critical that you send your requests to the correct areas of Aetna Medicare so we may handle them appropriately for our members. Send all Medicare prescription drug requests to the following fax number or call our pharmacy customer service center:

- Phone: 1-800-414-2386
- Fax: 1-800-408-2386

A complete description of our coverage determination and exceptions process, and how to contact Aetna if you are assisting a member with this process, is available on our Aetna Medicare Plans website.

MA and Medicare PDP member grievance and appeal rights
Medicare beneficiaries enrolled in MA plans and PDPs are entitled to specific CMS-mandated appeal and grievance rights. Aetna has a dedicated Medicare Grievance and Appeal Unit to process all member appeal and grievance requests.

Appeals and grievances are processed in accordance with the standard and expedited requirements and time frames established by CMS. MA plan and PDP members have the right to appeal any decision about the plan’s failure to pay or provide coverage for what the member believes are covered benefits and services (including non-Medicare covered benefits).

We may require the cooperation and/or participation of contracted providers in our internal and external review procedures relating to the processing of Medicare member appeals and grievances. If necessary, contracted providers should instruct the member to contact us for his or her MA plan appeal rights, as well as inform the member of his or her right to receive, upon request, a detailed written notice from us regarding coverage for services. Members should be directed to contact Member Services using the phone number listed on their Aetna ID card.

When a Medicare member appeals a denied service or a denial of a service they believe they are entitled to, we may need clinical records from you. We require all requests for clinical records to be handled by you as promptly as possible. There are instances where we have less than 48 hours to respond to an appeal and your clinical information is imperative to making an accurate and timely decision.

For a complete description of our MA and Medicare PDP appeal and grievance procedures and time frames, and how to contact Aetna if you are assisting a member with this process, refer to the following links:

- Aetna Medicare Rx Plan (PDP): Exceptions, Appeals and Grievances
- Aetna Medicare Advantage: Appeals and Grievances

Obligation to respond to requests for records
We are required to ask our network providers to give us clinical documentation to help make coverage decisions for pharmacy or medical services. Under our contract with you, you’re obligated to provide this information to us promptly upon request. Our clinical staff will contact your office by phone and fax when we need documentation. The timelines for making coverage decisions are short and highly regulated, so it is critical that you provide us with the requested clinical information on a timely basis. If you don’t, it adversely impacts your patients’ access to care and results in unnecessary coverage denials. Please make sure your staff knows they must respond quickly to medical record requests. Failure to respond may impact your future participation status.

Confidentiality and accuracy of member records
Contracted providers must safeguard the privacy and confidentiality of, and ensure the accuracy of, any information that identifies an MA plan member. Original medical records must be released only in accordance with federal or state laws, court orders or subpoenas.

Specifically, our contracted providers must:

- Maintain accurate medical records and other health information
- Help ensure timely access by members to their medical records and other health information
• Abide by all federal and state laws regarding confidentiality and disclosure of mental health records, medical records, other health information and member information
• Provide staff with periodic training in member information confidentiality
Refer to the Privacy Practices section for further information.

Coverage of renal dialysis services for Medicare members temporarily out of area
An MA plan member may be temporarily out of the service area for up to six months. MAOs must pay for renal dialysis services obtained by an MA plan member from a contracted or non-contracted Medicare-certified physician or health care professional while the member is temporarily out of his or her MA plan’s service area.

Direct access to in-network women’s health specialists
MA plan members have direct access to mammography screening services at a contracted radiology facility without a referral. They also have direct access to in-network women’s health specialists for routine and preventive services.

Direct-access immunizations
MA members may receive influenza, hepatitis B and pneumococcal vaccines from any network provider without a referral, and there is no cost to the member if it is the only service provided at that visit. A PCP copayment will apply for all other immunizations that are medically necessary in addition to the cost of the drug.

Emergency services
Refer to the Your Rights section of the Aetna website for more information on emergency services.

Health risk assessment
We perform an initial health risk assessment of each new MA plan member within 90 days of his or her enrollment in an Aetna MA plan. This health risk assessment is completed by telephone for all new MA plan members. The information obtained through the survey is sent to the member’s primary care physician.

Receipt of federal funds, compliance with federal laws and prohibition on discrimination
Payments received by contracted providers from MAOs for services rendered to MA plan members include federal funds; therefore, an MAO’s contracted providers are subject to all laws applicable to recipients of federal funds, including, without limitation: (1) Title VI of the Civil Rights Act of 1964, as implemented by regulations at 45 CFR part 84; (2) the Age Discrimination Act of 1975, as implemented by regulations at 45 CFR part 91; (3) the Rehabilitation Act of 1973; (4) the Americans with Disabilities Act; (5) Federal laws and regulations designed to prevent or ameliorate fraud, waste and abuse, including, but not limited to, applicable provisions of federal criminal law; (6) the False Claims Act (31 U.S.C. §§ 3729 et. seq.; (7) the anti-kickback statute (section 1128B(b) of the Social Security Act); and (8) Health Insurance Portability and Accountability Act (HIPAA) administrative simplification rules at 45 CFR parts 160, 162 and 164.

In addition, our contracted providers must comply with all applicable Medicare laws, rules and regulations, and, as provided in applicable laws, rules and regulations, contracted providers are prohibited from discriminating against any MA plan member on the basis of health status.

Provider terminations
When a provider’s participation in the Aetna Medicare network is terminated, CMS requires that Aetna make a good faith effort to provide written notice of the termination at least 30 calendar days prior to the termination effective date to all MA plan members who are patients seen on a regular basis by the provider. However, note that when a PCP is terminated from the Aetna Medicare network, all members who are patients of that PCP must be notified of the PCP’s termination at least 30 days prior to the termination effective date. According to your contract you must give advanced notice to Aetna prior to terminating your agreement, for example, 90 – 120 days prior to terminating or based on your contractual language.

Financial liability for payment for services
In no event should an MAO’s contracted provider bill an MA plan member (or a person acting on behalf of an MA plan member) for payment of fees that are the legal obligation of the MAO. However, a contracted provider may collect deductibles, coinsurance or copayments from MA plan members in accordance with the terms of the member’s Evidence of Coverage.

Note: CMS issued a memo to MAOs dated September 17, 2008, (“CMS Guidance”) providing guidance regarding balance billing by providers of certain individuals enrolled in both Medicare Advantage plans and a State Medicaid plan (“Dual Eligible beneficiaries”). More specifically, this CMS Guidance states that providers are prohibited from balance billing Dual Eligible beneficiaries who are classified as Qualified Medicare Beneficiaries (QMB) for Medicare Parts A and B cost sharing amounts. The CMS Guidance explains that providers must accept Medicare and Medicaid payment(s), if any, as payment in full. A QMB has no legal liability to make payment to a provider or Medicare Advantage plan for Medicare Part A or B cost sharing, and a provider may not treat a QMB as “private pay patient” in order to bill a QMB patient directly. In addition, the CMS Guidance states that federal regulations require a provider treating an individual enrolled in a State Medicaid plan, including QMBs, to accept Medicare assignment. Providers participating in Aetna’s Medicare networks are required to provide covered services to Aetna Medicare Dual Eligible beneficiaries enrolled in Aetna’s Medicare Advantage plans (“Dual Eligible members”) and comply with all of the requirements set forth in this CMS Guidance. Participating providers must accept Aetna’s payment as payment in full or bill Medicaid for the Dual Eligible member’s copayment.

Medicare Compliance Program requirements
If you are contracted with us to provide administrative and/or health care services for our MA plans, you are considered a “first tier entity.” CMS requires that Aetna’s first tier, downstream and related entities (FDRs) fulfill Medicare Compliance Program requirements.
CMS rules explain that these arrangements continue down to the level of ultimate provider of both health care and administrative services. So providers that deliver health care services to our Medicare members are considered FDRs. If you subcontract health care or administrative services, those subcontractors are considered downstream entities.

What requirements apply to FDRs?
CMS requires that Aetna’s FDRs fulfill specific Medicare Compliance Program requirements. We describe those requirements in our First Tier, Downstream and Related Entities (FDR) Medicare Compliance Program Guide (FDR Guide). Review the FDR Guide and ensure you have internal processes in place to support your compliance with the requirements. You can find the FDR Guide on aetna.com/medicare.

Some of the requirements are described below but you should review the FDR Guide and ensure you have a process in place to support your compliance with all the requirements. Additionally, you should communicate the Medicare Compliance Program requirements to your downstream entities.

Code of Conduct/Compliance policies
FDRs must distribute a code of conduct and/or compliance policies to employees within 90 days of hire or contracting, when updates are made, and annually thereafter. You can provide either Aetna’s Code of Conduct and Compliance Policies, or your own comparable code of conduct or compliance policies, to your employees and downstream entities that support Aetna’s Medicare plans.

Fraud, Waste and Abuse training
Effective January 1, 2016, FDRs must provide the CMS Fraud, Waste and Abuse training to applicable employees within 90 days of hiring or contracting, and annually thereafter. This training is available on the Medicare Learning Network and is titled Combating Medicare Parts C and D Fraud, Waste, and Abuse Training. You can also download it here. You may be exempted from completing training but only if you are “deemed.” You are considered deemed if you participate in traditional fee-for-service Medicare or if you are accredited as a durable medical equipment, prosthetics, orthotics and supplies (DMEPOS) supplier.

General Compliance training
Effective January 1, 2016, FDRs must provide CMS’ General Compliance training to applicable employees within 90 days of hiring or contracting, and annually thereafter. CMS’ training is available on the Medicare Learning Network and is titled Medicare Parts C and D General Compliance Training. You can also download it here.

Exclusion list screening
FDRs and their employees may not be excluded from participation in federally funded health care programs. Prior to hire or contracting, and monthly thereafter, FDRs must screen their employees and downstream entities against the following lists:
- Office of Inspector General (OIG) List of Excluded Individuals and Entities
- General Services Administration (GSA) System for Award Management (SAM)

What may happen if you don’t comply
If our FDRs fail to meet these CMS Medicare compliance program requirements, it may lead to:
- Development of a corrective action plan
- Retraining
- Termination of your contract and relationship with Aetna

Our actions in response to noncompliance will depend on the severity of the compliance issue. If an FDR identifies areas of noncompliance (for example, refusal of an employee to complete the required Fraud, Waste and Abuse training), they must take prompt action to fix the issue and prevent it from happening again.

Make sure you maintain documentation
You are required to maintain evidence of your compliance with the Medicare compliance program requirements for no less than ten years after the year in which such evidence was created. Aetna or CMS may request that you provide documentation of your compliance with these requirements.

Annual attestation
Each year on behalf of your organization, an authorized representative is required to review the FDR Compliance Program Guide and complete the Aetna Medicare Compliance Attestation, found here at aetna.com/medicare. In addition to completing an attestation, Aetna and/or CMS may request that you provide evidence of your compliance with these Medicare Compliance Program requirements.

Report concerns or questions
If you identify noncompliance or Fraud, Waste and Abuse, you can report it to Aetna by using the mechanisms outlined in our Code of Conduct. We prohibit retaliation for good-faith reporting of concerns.

If you have questions about the requirements that apply to FDR or if you have difficulty finding our FDR Guide, contact the Provider Service Center. The number for MA plans is 1-800-624-0757.

MACRA reimbursement policy
The Medicare Access and CHIP Reauthorization Act of 2015 (MACRA) was signed into law on April 16, 2015. MACRA created the Quality Payment Program (QPP), which repeals the Sustainable Growth Rate (SGR). It changes the way Medicare rewards physicians for value over time.

Our MACRA reimbursement policy applies to both of the payment tracks:
- Advanced Alternative Payment Model (AAPM): Our value based contracting reimbursement programs offer providers the option to qualify for this track as an Other Payer AAPM as long as the AAPM criteria are met within your specific contract terms. However, our provider reimbursements do not adjust to include reciprocal AAPM bonuses. AAPM bonuses are based on CMS Fee-For-Service membership, not your Aetna-specific membership.
• Merit-Based Incentive Payment System (MIPS): Our provider reimbursements do not adjust to include performance-based incentive payments made under traditional Medicare as the result of MACRA. Incentive payments are based on CMS Fee-For-Service membership, not your Aetna-specific membership.

Temporary move out of the service area
CMS defines a temporary move as: (1) an absence from the service area (where the member is enrolled in an MA plan) of six months or less, and (2) maintaining a permanent address/residence in the service area. An MA plan member is covered while temporarily out of the service area for emergent, urgent and out-of-area dialysis services. If a member permanently moves out of the MA plan service area or is absent for more than six months, the MAO must disenroll the member from the MA plan.

Urgently needed services
Urgently needed services are covered services provided to a member that are non-preventive or non-routine, and needed to prevent the serious deterioration of a member’s health following an unforeseen illness, injury or condition. Urgently needed services include conditions that cannot be adequately managed without immediate care or treatment, but do not require the level of care provided in the emergency room.

Physicians/health care professionals and marketing of MA plans
MAOs and their contracted providers must adhere to all applicable Medicare laws, rules and regulations relating to marketing. Per Medicare regulations, “marketing materials” include, but are not limited to, promoting an MAO or a particular MA plan, informing Medicare beneficiaries that they may enroll or remain enrolled in an MA plan offered by an MAO, explaining the benefits of enrollment in an MA plan or rules that apply to members or explaining how Medicare services are covered under an MAO plan.

Regulations prevent MAOs from conducting sales activities in health care settings except in common areas. MAOs are prohibited from conducting sales presentations and distributing and/or accepting enrollment applications in areas where patients primarily intend to receive health care services. MAOs are permitted to schedule appointments with beneficiaries residing in long-term care facilities, only if the beneficiary requested it.

Physicians and other health care professionals may discuss, in response to an individual patient’s inquiry, the various benefits of MA plans. Physicians are encouraged to display plan materials for all plans with which they participate.

Physicians and health care professionals can also refer their patients to 1-800-MEDICARE, the State Health Insurance Assistance Program, the specific MAO marketing representatives or CMS’ website at medicare.gov for additional information. Physicians and health care professionals cannot accept MA plan enrollment forms.

Aetna follows the federal anti-kickback statute and CMS marketing requirements associated with Medicare marketing activities conducted by providers and related to Aetna Medicare plans. Payments that Aetna makes to providers for covered items and/or services will be fair market value, consistent with an arm’s length transaction, for bona fide and necessary services, and otherwise will comply with relevant laws and requirements, including the federal anti-kickback statute.

For a complete description of laws, rules, regulations, guidelines and other requirements applicable to Medicare marketing activities conducted by providers, refer to Chapter 3 of the Medicare Managed Care Manual, which can be found on the CMS website.

Annual notice of change
MA plan benefits are subject to change annually. Members are provided with written notice regarding the annual changes by the date specified by CMS. The CMS Annual Election Period typically runs from October 15 through December 7 for the upcoming calendar year for beneficiaries enrolled in individual MA-PD and PDP plans. Elections made during the Annual Election Period are effective January 1 of each year. Providers can access the Aetna Medicare website for information on the individual plans and benefits that will be available within their service area for the following calendar year.

Services received under private contract
As specified by Medicare laws, rules and regulations, physicians may “opt out” of participating in the Medicare program and enter into private contracts with Medicare beneficiaries. If a physician chooses to opt out of Medicare due to private contracting, no payment can be made to that physician directly or on a capitated basis for Medicare-covered services. The physician cannot choose to opt out of Medicare for some Medicare beneficiaries but not others, or for some services but not others. The MAO is not allowed to make payment for services rendered to MA members to any physician or health care professional who has opted out of Medicare due to private contracting, unless the beneficiary was provided with urgent or emergent care.

Claims/billing requirements

Hospitals and physicians using the Diagnostic and Statistical Manual of Mental Disorders, 4th Edition, (DSM IV) for coding must convert the information to the official ICD-10 CM codes. Failure to use the proper codes will result in diagnoses being rejected in the Risk-Adjustment Processing System.

• The ICD-10 CM codes must be to the highest level of specificity: assign three-digit codes only if there are no four-digit codes within that code category, assign four-digit codes only if there is no fifth-digit subclassification for that subcategory and assign the fifth-digit subclassification code for those subcategories where it exists.

* Twelve months for members enrolled in a stand-alone Medicare prescription drug plan (PDP).
• Report all secondary diagnoses that impact clinical evaluation, management and/or treatment.
• Report all relevant V-codes and E-codes pertinent to the care provided. An unspecified code should not be used if the medical record provides adequate documentation for assignment of a more specific code.

Again, failure to use current coding guidelines may result in a delay in payment and/or rejection of a claim.

Submission of Medicare claims and encounter data for risk adjustment

The Balanced Budget Act of 1997 (BBA) specifically required implementation of a risk-adjustment method no later than January 1, 2000. In 2000 – 2001, encounter data collection was expanded to include outpatient hospital and physician data. Risk adjustment is used to fairly and accurately adjust payments made to MAOs by CMS based on the health status and demographic characteristics of an enrollee. CMS requires MAOs to submit diagnosis data regarding physician, inpatient and outpatient hospital encounters on a quarterly basis, at minimum.

CMS uses the Hierarchical Condition Category payment model referred to as CMS-HCC model. This model uses the ICD-10 CM as the official diagnosis code set in determining the risk-adjustment factors for each member. The risk factors based on HCCs are additive and are based on predicted expenditures for each disease category. For risk-adjustment purposes, CMS classifies the ICD-10 CM codes by disease groups known as HCCs.

Providers are required to submit accurate, complete and truthful risk-adjustment data to the MAO. Failure to submit complete and accurate risk-adjustment data to CMS may affect payments made to the MAO and payments made by the MAO to the physician or health care professional organizations delegated for claims processing.

Coexisting conditions

Certain combinations of coexisting diagnoses for an enrollee can increase their medical costs. The CMS-HCC model for coexisting conditions that should be coded for hospital and physician services are as follows:

• Code all documented conditions that coexist at time of encounter/visit and that require or affect patient care treatment or management. Do not code conditions that were previously treated and no longer exist. However, history codes (V10-V19) may be used as secondary codes if the historical condition or family history has an impact on current care or influences treatment.
• Physicians and hospital outpatient departments should not code diagnoses documented as “probable,” “suspected,” “questionable,” “rule out” or “working.” Rather, physicians and hospital outpatient departments should code the condition(s) to the highest degree of certainty for that encounter/visit, such as symptoms, signs, abnormal test results or other reason for the visit.

Risk adjustment medical record validation

Annually, CMS conducts a medical record review to validate the accuracy of the risk-adjustment data submitted by the MAO. Medical records created and maintained by providers must correspond to and support the hospital inpatient, outpatient and physician diagnoses submitted by the provider to the MAO. In addition, Medicare Advantage regulations require that providers submit samples of medical records for validation of risk-adjustment data and the diagnoses reported by Aetna to CMS, as required by CMS.

Therefore, providers must give access to and maintain medical records in accordance with Medicare laws, rules and regulations. (Refer to the “Access to facilities and records” section on page 13.) CMS may adjust payments to the MAO based on the outcome of the medical record review.

Providers of hospice-related services

Aetna Medicare members may elect to use the hospice benefit in the Original Medicare program instead of their MA HMO and PPO coverage. Prior to initiating hospice care, the member or his or her representative must sign the “Elective Benefits” waiver. When this election is documented, the case should be referred to the Original Medicare hospice provider.

Original Medicare will assume financial responsibility on the date the waiver is signed, and reimbursement will be made by Original Medicare directly to the agency. Durable medical equipment (DME) will be the responsibility of the hospice provider. The MA plan remains responsible for payment of those medical services not related to the terminal illness and additional benefits not covered by Medicare. An example of an additional benefit is the eyeglass reimbursement.

For services not related to the terminal illness, inpatient services should be billed to the Medicare Fiscal Intermediary using the condition code 07. For physician services and ancillary services not related to the terminal illness, the physician or other health care professional should bill the Medicare carrier (as is done for Medicare FFS patients) and use the modifier “GW.”

Attending physician services are billed to the Medicare carrier with the “GV” modifier, provided they were not furnished under a payment arrangement with the hospice. If another physician covers for the designated attending physician, the services of the substituting physician are billed by the designated attending physician under the reciprocal or locum tenens billing instructions. In such instances, the attending physician bills using the “GV” modifier in conjunction with either a “QS” or “Q6” modifier.

CMS physician incentive plan: General requirements

Medicare Advantage regulations require that MAOs and their participating providers meet certain CMS monitoring and disclosure requirements that apply to “physician incentive plans.” As outlined in 42 C.F.R § 422.208(a), a “physician incentive plan” means any compensation arrangement to pay a physician or physician group that may directly or indirectly have the effect of reducing or limiting the services provided to any MA plan enrollee.

The physician incentive plan requirements apply to an MAO and any of its first-tier and downstream provider arrangements that utilize a physician incentive plan in their payment arrangements with individual physicians or physician groups. Provider downstream arrangements may
include an intermediate first-tier entity, which includes, but
is not limited to, an independent practice association (IPA)
that contracts with one or more physician groups or any other
organized group that provides administrative and/or health
care services to MA members through downstream providers.

CMS imposes the following requirements on MAOs and their
participating providers regarding physician incentive plan
arrangements:

• MAOs and their participating providers cannot make a
specific payment, directly or indirectly, to a physician or
physician group as an inducement to reduce or limit medically
necessary services furnished to any particular MA enrollee.
Indirect payments may include offerings of monetary value
(such as stock options or waivers of debt) measured in the
present or future.

• If the physician incentive plan places a physician or
physician group at substantial financial risk for services
that the physician or physician group does not furnish
itself, the MAO/participating provider must ensure that
all physicians and physician groups at substantial financial
risk (as described in 42 C.F.R §422.208(a) & (d)) have either
aggregate or per-patient stop loss protection (as described
in 42 C.F.R §422.208(f)). In addition, MAOs and participating
providers must conduct periodic Aetna MA member surveys
in accordance with MA regulations.

• For all physician incentive plans, the MAO must provide
CMS with assurances that applicable physician incentive
plan requirements are met and information concerning
physician incentive plans, as requested. To meet this CMS
requirement, any participating provider with a physician
incentive plan arrangement must provide to Aetna annually
the following information for each physician incentive plan
arrangement:
  - Whether referral services are covered by the physician
    incentive plan
  - The type of physician incentive plan arrangement
    (that is, withhold, bonus, capitation)
  - The percent of total income at risk for referrals
  - The patient panel size
  - The amount and type of stop loss protection

Aetna will disclose any physician incentive plan arrangements
maintained by participating providers, if required to do so,
under applicable laws and regulations.

**CMS physician incentive plan: Substantial financial risk**

As more fully described in 42 C.F.R. § 422.208 (a) and (d),
substantial financial risk occurs when risk is based on the
use or costs of referral services, and that risk exceeds a risk
threshold of 25 percent of potential payments. (Payments
based on other factors, such as quality of care furnished, are
not considered in this determination.) Refer to 42 C.F.R. §
422.208 for additional information.

**CMS physician incentive plan: Stop loss protection
requirements**

In addition, as more fully described in 42 C.F.R. §422.208(f),
MAOs and their participating providers must ensure that all
physicians and physician groups at substantial financial risk
have either aggregate or per-patient stop loss protection in
accordance with the following requirements:

• Aggregate stop loss protection must cover 90 percent
  of the costs of referral services that exceed 25 percent
  of potential payments.

• For per-patient stop loss protection, if the stop loss
  protection provided is on a per-patient basis, the stop loss
  limit (deductible) per patient must be determined based on
  the size of the patient panel and may be a combined policy
  or consist of separate policies for professional services and
  institutional services. In determining patient panel size, the
  patients may be pooled, as described in 42 C.F.R. §
  422.208(g).

• Stop loss protection must cover 90 percent of the costs of
  referral services that exceed the per-patient deductible
  limit. The per-patient stop loss deductible limits are set
  forth in 42 C.F.R. § 422.208(f).

Participating providers with physician incentive plan
arrangements must maintain, at their sole expense, any stop
loss coverage required to be maintained under applicable
laws and regulations in connection with any such physician
incentive plan arrangements. They must also provide
evidence of such coverage to Aetna upon request.

**Medicare Advantage organization (MAO) obligations**

The MAO is prohibited from restricting a physician or health
care professional from advising his or her patients about their
health status, treatment options, the risks and benefits of
those treatment options, or the opportunity to refuse
treatment and/or express preferences about future
treatment decisions.
Member programs/resources

**Aetna Compassionate Care**

The goal of the Aetna Compassionate Care program is to offer help to members and their families facing the advanced stages of an illness. The program offers support and resources to help them cope more effectively with the physical and emotional challenges that lie ahead.

For more information, go to [Aetna Compassionate Care](#).

**Aetna medical management**

Our medical management programs are designed to help our members achieve their optimal health. Within the portfolio of programs is our disease management program, our enhanced case management program, our National Medical Excellence Program, our Beginning Right maternity program, our integrated clinical programs for behavioral health, disability and pharmacy, as well as an expanding suite of wellness programs.

For more information, go to [Aetna Health and Wellness](#).

**Aetna disease management**

Our disease management program is designed to help your patients work with their doctors to effectively manage ongoing health conditions and improve outcomes.

Participants have access to Aetna nurses, who are available to provide education and support. Participants may also have access to some or all of the following:

- The opportunity to work one on one with an Aetna nurse, who acts as their “personal health coach.”
- Personalized information about their current health conditions/issues.
- Educational information about multiple aspects of their medical condition(s), treatment options and medications.
- Support in making lifestyle changes to achieve and maintain optimal health.

Our disease management programs are included in many Aetna medical plans.* It is also available to self-funded plan sponsors who can include it in their benefits offering. For additional information or to refer your patients, call the Member Services telephone number on the member’s ID card. You can also find more information on our public website.

---

*Aetna Medicare members have access to a disease management program. It includes diabetes, coronary artery disease, cerebrovascular disease/stroke and congestive heart failure. The program offers information and tools to help these members better control their conditions. For information or to refer members, call the Member Services number on the Aetna ID card.
**Fitness benefits**

For 2018, most individual Aetna Medicare Advantage plans offer fitness benefits through one of two programs:

- **Silver&Fit® Exercise and Healthy Aging Program**, administered by American Specialty Health, Inc. (ASH)
- **SilverSneakers®, administered by Tivity**

Neither program is available for two individual MA plans in Maryland. Members and providers can call Member Services to find out if the fitness benefit is available and which program option is offered.

**Silver&Fit**

Members can visit silverandfit.com or call 1-866-333-4274 (TTY: 1-877-710-2746) from 8 a.m. to 9 p.m. ET, Monday through Friday, to:

- Find fitness locations
- Request a post-enrollment kit and Silver&Fit ID card
- Order an at-home exercise kit
- Get additional information

**SilverSneakers**

Members can visit silversneakers.com or call 1-888-423-4632 (TTY: 711) from 8 a.m. to 8 p.m. ET, Monday through Friday, to:

- Find fitness locations
- Request a SilverSneakers ID card
- Enroll in FLEX™ classes
- Order a Steps kit
- Get additional information

**Healthy Lifestyle Coaching**

- The Healthy Lifestyle Coaching program is a comprehensive, motivational health coaching program that offers a suite of one-on-one telephonic health coaching interventions, unlimited inbound calls and educational materials.
- The program is designed to help participants change one or more modifiable lifestyle behaviors, such as smoking and weight management.
- Healthy Lifestyle Coaching is offered as a buy-up option for our group Aetna Medicare Advantage plans.

**Group plans**

For 2018, the fitness benefit is offered as a buy-up option for our group Aetna Medicare Advantage plans. Members and providers can contact Member Services to determine if the fitness benefit is available and which program option is offered.

**Informed Health Line**

Aetna’s Informed Health Line puts members in touch with registered nurses 24 hours a day, 7 days a week. The nurses can provide information on thousands of health issues, medical procedures and treatment options and the nurses can also offer members suggestions for communicating more effectively with their doctors.

When members call, nurses can provide them with a video link to help promote more education/support about the health topic they discussed. The nurse selects the appropriate video from over 400 choices, with more videos added throughout the year. Each video is about two to three minutes long. This video library replaces the audio library we formerly used. Research shows that well-designed videos are more effective in delivering instructions.

The video library was created by the Healthwise production, animation and user experience team. Each video goes through a comprehensive medical review process to ensure it provides the latest and most accurate health information available.

**How it works**

1. Members start by speaking to an Informed Health Line nurse.
2. Next, the nurse emails the member a link to the video library.
3. Members can visit the link and watch the video as often as they want, free of charge.

There is no limit to the number of video links a member may receive from the Informed Health Line nurse.

The video library helps to:

- Provide further education/support on various health topics
- Share information in a simple way, with an empathic tone
- Engage viewers with easy-to-understand health topics and an expressive visual style
- Conveniently connect members to information

**Institutes of Excellence™**

Institutes of Excellence is Aetna’s network of participating facilities for the following services:

- Infertility services
- Solid organ, blood and marrow transplants
- Transplant-related services, including evaluation and follow-up care

**Institutes of Quality®**

Institutes of Quality is a designation facilities can achieve for certain clinical services (e.g., bariatric surgery, selected orthopedic and cardiac procedures). We base this designation on our evaluation of their processes and outcomes (e.g., mortality rates, readmission rates) for these procedures.

**Women’s health**

The Women’s Health Policies and Procedures Manual explains Aetna’s gynecologic and obstetric programs and policies. It has information about our Beginning Right maternity program, Obstetric Ultrasound Enhancement program and Non-Stress Test Enhancement program. It also has other topics of special interest to participating obstetricians and gynecologists.
### Discrimination

Federal and state laws prohibit unlawful discrimination in the treatment of patients on the basis of race, ethnicity, national origin, religion, sex, age, mental or physical disability or medical condition, sexual orientation, claims experience, medical history, evidence of insurability (including conditions arising out of acts of domestic violence), disability, genetic information or source of payment.

All participating physicians should have a documented policy regarding non-discrimination.

All participating physicians or health care professionals may also have an obligation under the federal Americans with Disabilities Act to provide physical access to their offices and reasonable accommodations for patients and employees with disabilities. All participating physicians or health care professionals that are covered entities under the Section 1557 Nondiscrimination in Health Programs and Activities Final Rule must also provide access to medical services, including diagnostic services, to an individual with a disability.

Participating physicians or health care professionals may use different types of accessible medical diagnostic equipment. Or ensure they have enough staff to help transfer the patient, as may be needed, to comply.

### Informed consent

All participating physicians and other health care professionals should understand and comply with applicable legal requirements regarding patient informed consent, and adhere to the policies of the medical community in which they practice and/or hospitals where they have admitting privileges. In general, it is the participating physician’s duty to give patients adequate information and be reasonably sure the patient understands this information before proceeding to treat the patient.

### Consents to release medical information

Provider will obtain from members, any necessary consents or authorizations to the release of information and records to Company, Payers, their agents and representatives. In performing this covenant, provider will comply with any applicable Federal and state laws and regulations.

### Member rights and responsibilities

#### Advance Directive/Patient Self-Determination Act (PSDA)

The Patient Self-Determination Act is a federal law designed to raise public awareness of advance directives. An advance directive is a written statement, completed in advance of a serious illness, about how one would want medical decisions made for themselves if he or she is incapable of making them. The two most common forms of advance directives are the Living Will and the Durable Power of Attorney for health care.

The Centers for Medicare & Medicaid Services (CMS) strongly urges all practitioners to include documentation in the medical record regarding whether a Medicare member has completed an advance directive. This is also an Aetna medical record documentation requirement.

The Advance Directive Notification Form should be completed by the patient. Aetna recommends that each patient return this form to their primary care physician so that it may be placed in their medical file.

Aetna encourages you to discuss advance directives with your patients.

**Note:** The Patient Self-Determination Act impacts all Aetna members over the age of 18.
Rights and responsibilities: Commercial plan members

These are the rights and responsibilities given to our members. As an Aetna HMO or PPO member, you have a right to:

Information
• Know the names and qualifications of health care professionals involved in your medical treatment.
• Get up-to-date information about the services covered or not covered by your plan, and any limitations or exclusions.
• Know how your plan decides what services are covered.
• Get information about copayments and fees that you must pay.
• Get up-to-date information about the health care professionals, hospitals and other providers that participate in the plan.
• Be told how to file a complaint or appeal with the plan.
• Know how the plan pays network health care professionals for providing services to you.
• Receive information from health care professionals about your medications, including what the medications are, how to take them and possible side effects.
• Receive from health care professionals as much information about any proposed treatment or procedure as you may need in order to consent to or refuse a course of treatment. Except in an emergency, this information should include a description of the proposed procedure or treatment, the potential risks and benefits involved, any alternate course of treatment (even if not covered) or non-treatment and the risks involved in each, and the name of the health care professional who will carry out the procedure or treatment.
• Be informed by participating health care providers about continuing health care requirements after you’re discharged from inpatient or outpatient facilities.
• Be informed if a health care professional plans to use an experimental treatment or procedure in your care. You have the right to refuse to participate in research projects.
• Receive an explanation about non-covered services.
• Receive a prompt reply when you ask the plan questions or request information.
• Receive a copy of the plan’s Member Rights and Responsibilities statement.

Access to care
• Obtain primary and preventive care from the primary care physician you chose from the plan’s network.
• Change your primary care physician to another available primary care physician who participates in the plan.
• Get necessary care from participating network specialists, hospitals and other health care providers.
• Be referred to participating network specialists who are experienced in treating your chronic illness.
• Be told by your health care professionals how to schedule appointments and get health care during and after office hours. This includes continuity of care.
• Be told how to get in touch with your primary care physician or a back-up physician 24 hours a day, every day.
• Call 911 (or any available emergency response service) or go to the nearest emergency facility when you have a medical condition with acute symptoms that are severe enough to result in serious danger to the person’s health.
• Receive urgently needed medically necessary care.

Freedom to make decisions
• Use these rights regardless of your race, physical or mental disability, ethnicity, gender, sexual orientation, creed, age, religion, national origin, cultural or educational background, economic or health status, English proficiency, reading skills, genetic information or source of payment for your care.
• Have any person who has legal responsibility to make medical care decisions for you make use of these rights on your behalf.
• Refuse treatment or leave a medical facility, even against the advice of doctors (providing you accept responsibility and the consequences of the decision).
• Complete an Advance Directive, Living Will or other directive and give it to your health care professionals.
• Know that you or your health care professional cannot be punished for filing a complaint or appeal.

Personal rights
• Be treated with respect for your privacy and dignity.
• Have your medical records kept private, except when permitted by law or with your approval.
• Be involved in deciding on the kind of care you do or do not want.

Input
• Have your health care professionals’ help when you have to make decisions about the need for services and if you are involved in the complaint process.
• Suggest changes in the plan’s policies and services, including our Member Rights and Responsibilities policy.

As an Aetna HMO or PPO member, you have a responsibility to:

Exercise your rights
• Choose a primary care physician from the plan’s network and form an ongoing patient-physician relationship.
• Help your health care professional make decisions about your health care.

Follow instructions
• Read and understand your plan and benefits. Know your copayments and what services are covered and what services are not covered.
• Follow the directions and advice you and your health care professionals have agreed upon.
• See the specialists your primary care physician refers you to.
• Make sure you have the correct authorization for certain services, including inpatient hospitalization and out-of-network treatment.
• Show your member ID card to health care professionals before getting care from them.
• Pay the copayments required by your plan.
• Promptly follow your plan’s complaint procedures if you believe you need to submit a complaint.
• Treat doctors and all providers, their staff and the staff of the plan with respect.
• Do not be involved in dishonest activity directed to the plan or any health care provider.

Communicate
• Tell your health care professionals if you do not understand the treatment you receive and to ask if you do not understand how to care for your illness.
• Tell your health care professional promptly when you have unexpected problems or symptoms.
• Consult with your primary care physician for referrals to non-emergency covered specialist or hospital care.
• Understand that network doctors and other health care professionals who care for you are not employees of Aetna and that Aetna does not control them.
• Call Aetna’s Member Services department about your plan if you do not understand how to use your benefits.
• Give correct and complete information to doctors and other health care professionals who care for you.
• Tell Aetna about other medical insurance coverage you or your family members may have.
• Ask your treating doctor about all treatment options, and how the doctor is paid by Aetna.

You may have additional rights and responsibilities depending upon any state law applicable to your plan.

Rights and responsibilities: Medicare Advantage HMO and PPO plan members with a prescription drug benefit

As a member in a Medicare Advantage HMO and PPO plan member with a prescription drug benefit included in the plan design, you have a right to:

Information
• Get information from Aetna about our plan. This includes information about how we’re doing financially, and how our plan compares to other Medicare health plans.
• Get information from us about our network providers, including our network pharmacies.
• Have questions from non-English-speaking beneficiaries answered. We make individuals and translation services available, and the information we provide about our benefits must be accessible and appropriate for people who are eligible for Medicare because of disability.
• Get an explanation from Aetna about any prescription drugs, Part C medical care or service not covered by our plan.
• Receive in writing why we will not pay for or approve a prescription drug, Part C medical care or service, and how you can file an appeal to ask us to change this decision even if you obtain the prescription drug, or Part C medical care or service from a pharmacy or provider not in the Aetna network.
• Receive an explanation from us about any utilization-management requirements, such as step therapy or prior authorization, which may apply to your plan.
• Make a complaint if you have concerns or problems related to your coverage.
• Be treated fairly (that is, not be retaliated against) if you make a complaint.
• Get a summary of information about the appeals made by members and the plan’s performance ratings, including how it’s been rated by plan members and how it compares to other Medicare health plans.
• Get more information about your rights. If you have questions or concerns about your rights and protections, you can:
  - Call Aetna Member Services.
  - Get free help and information from your State Health Insurance Assistance Program (SHIP).
  - Call 1-800-Medicare (1-800-633-4227) 24 hours a day, 7 days a week. TTY users should call 1-877-486-2048.
  - Call the Office for Civil Rights at 1-800-368-1019 if you think we’ve treated you unfairly or not respected your rights. TTY users should call 1-800-537-7697.

Access to care
• Choose a network health care provider. If you’re a member of a Medicare PPO plan or PPO plan with an Extended Service Area, you have the right to seek care from any health care provider in the United States, who is eligible to be paid by Medicare, and agrees to accept the plan. You may pay more for services obtained from an out-of-network provider.
• Go to a women’s health specialist in our plan (such as a gynecologist) without a referral.
• Get timely access to providers. “Timely access” means that you can get services within a reasonable amount of time.
• Get your prescriptions filled within a reasonable period of time at any network pharmacy.

Freedom to make decisions
• Get full information from your health care providers when you go for medical care. This includes knowing about all of the treatment options that are recommended for your condition, no matter what they cost or whether they’re covered by our plan.
• Participate fully in decisions about your health care. Your health care providers must explain things in a way that you can understand. Your rights include knowing about all of the treatment options that are recommended for your condition, no matter what they cost or whether they’re covered by our plan.
• Know about the different medication therapy management programs we offer in which you may participate.
• Be told about any risks involved in your care.
• Be told beforehand if any planned medical care or treatment is part of a research experiment. You must be given the choice of refusing experimental treatments.
• Refuse treatment. This includes the right to leave a hospital or other medical facility, even if your doctor advises you not to leave. This includes the right to stop taking your medication.
• Receive a detailed explanation from Aetna if you think a health care provider has denied care you believe you were entitled to receive or care you believe you should continue to receive. In these cases, you must request an initial decision, called an organization determination.
• Ask someone such as a family member or friend to help you with decisions about your health care. You may fill out a form to give someone the legal authority to make medical decisions for you.
• Give your doctors written instructions about how you want them to handle your medical care, such as “Advanced Directives,” “Living Will,” and “Power of Attorney for Health Care,” if you become unable to make decisions for yourself. You can contact Member Services to ask for the forms.

Personal rights
• Be treated with dignity, respect and fairness at all times. Aetna must obey laws that protect you from discrimination or unfair treatment. Aetna does not discriminate based on a person’s race, mental or physical disability, religion, gender, sexual orientation, health status, ethnicity, creed, age, claims experience, medical history, genetic information, evidence of insurability, geographic location within the service area or national origin.
• The privacy of your medical records and personal health information according to federal and state laws that protect the privacy of your medical records and personal health information. There are exceptions allowed or required by law, such as release of health information to government agencies that are checking on quality of care.
• Receive a written notice called a “Notice of Privacy Practice” that tells you about privacy of your medical records and personal health information rights and explains how we protect the privacy of your health information.
• Look at medical records held at the plan, and get a copy of your records.
• Ask Aetna to make additions or corrections to your medical records.
• Know how we’ve given out your health information and used it for non-routine purposes.
• Get information from us about our network pharmacies, providers and their qualifications, as well as information about how we pay our doctors.
• For a list of the providers and pharmacies in the plan’s network, see the Provider Directory. For more detailed information about our providers or pharmacies, visit our website at aetnamedicare.com or call Member Services.

Input
• Suggest changes in the plan’s policies and services, including our Member Rights and Responsibilities policy.

As a member in a Medicare Advantage HMO and PPO plan with a prescription drug benefit included in the plan design, you have a responsibility to:

Exercise your rights
• Learn about your coverage and the rules you must follow to get care as a member.

Follow instructions
• Unless it’s an emergency, when seeking care, let health care providers know that you’re enrolled in our plan and present your plan membership card to the provider.
• Give your doctor and other health care providers the information they need to care for you.
• Follow the treatment plans and instructions that you and your doctors agree on.
• Act in a way that supports the care given to other patients and helps the smooth running of your doctor’s office, hospitals and other offices.
• Tell our plan if you have additional health insurance or drug coverage and use all of your insurance coverage.
• Pay your plan premiums and copayments/coinsurance for your covered services.
• Pay for services that aren’t covered.

Communicate
• Ask your doctors and other providers if you have any questions and have them explain your treatment in a way you can understand.
• Tell your doctor or other health care providers that you’re enrolled in our plan. Show you membership card whenever you get your medical care or Part D prescription drugs.
• Let Aetna know if you move.
• Let us know if you have any questions, concerns, problems or suggestions.

Rights and responsibilities: Medicare Advantage HMO and PPO plan members without a prescription drug benefit

As an Aetna Medicare Advantage HMO and PPO plan member without a prescription drug benefit, you have a right to:

Information
• Get information from Aetna about our plan. This includes information about our financial condition and how our plan compares to other Medicare health plans.
• Get information from us about our network providers.
• Get information from us in a way that works for you. Our plan has people and free language interpreter services available to answer questions from non-English-speaking members. We can also give you information in Braille, in large print or other alternate formats if you need it.
• Get an explanation from Aetna about any Part C medical care or service not covered by our plan.
• Receive in writing why we will not pay for or approve a Part C medical care or service, and how you can file an appeal to ask us to change this decision even if you obtain the Part C medical care or service from a provider not affiliated with our organization.
• Make a complaint if you have concerns or problems related to your coverage.
• Be treated fairly (that is, not be retaliated against) if you make a complaint.
• Get a summary of information about the appeals made by members and the plan’s performance ratings, including how it compares to other Medicare health plans.
• Get more information about your rights. If you have questions or concerns about your rights and protections, you can:
  - Call Aetna Member Services.
  - Get free help and information from your State Health Insurance Assistance Program (SHIP).
  - Visit medicare.gov to view or download the publication. Find it at medicare.gov/publications?pubs/pdf/10112.pdf.
  - Call 1-800-Medicare (1-800-633-4227) 24 hours a day, 7 days a week. TTY users should call 1-877-486-2048.
  - Call the Office for Civil Rights at 1-800-368-1019 if you think we’ve treated you unfairly or not respected your rights. TTY users should call 1-800-537-7697.

Access to care
• Choose a network health care provider. If you’re a member of a private fee-for-service plan, you have the right to seek care from any health care provider in the United States who is eligible to be paid by Medicare and agrees to accept Aetna’s terms and conditions of payment.
• Get timely access to providers. “Timely access” means that you can get services within a reasonable amount of time.
• Go to a women’s health specialist in our plan (such as a gynecologist) without a referral.
• If you have a disability and need help with access to care, please call Aetna Member Services.

Freedom to make decisions
• Get full information from your providers when you go for medical care.
• Participate fully in decisions about your health care. Your providers must explain things in a way that you can understand. Your rights include knowing about all of the treatment options that are recommended for your condition, no matter what they cost or whether they’re covered by our plan.
• Be told about any risks involved in your care.
• Be told beforehand if any planned medical care or treatment is part of a research experiment. You must be given the choice of refusing experimental treatments.
• Refuse treatment. This includes the right to leave a hospital or other medical facility, even if your doctor advises you not to leave. This includes the right to stop taking your medication.
• Receive a detailed explanation from Aetna if you think a health care provider denied care that you believe you were entitled to receive or care you believe you should continue to receive. In these cases, you must request an initial decision called an organization determination.
• Ask someone such as a family member or friend to help you with decisions about your health care. You may fill out a form to give someone the legal authority to make medical decisions for you.
• Give your doctors written instructions about how you want them to handle your medical care, such as “Advanced Directives,” “Living Will,” and “Power of Attorney for Health Care,” if you become unable to make decisions for yourself. You can contact member services to ask for the forms.

Personal rights
• Be treated with dignity, respect and fairness at all times. Aetna must obey laws that protect you from discrimination or unfair treatment. Aetna does not discriminate based on a person’s race, mental or physical disability, religion, gender, sexual orientation, health status, ethnicity, creed, age, claims experience, medical history, genetic information, evidence of insurability, geographic location within the service area or national origin.
• Receive privacy of your medical records and personal health information according to federal and state laws that protect the privacy of your medical records and personal health information. There are exceptions allowed or required by law, such as release of health information to government agencies that are checking on quality of care.
• Receive a written notice called a “Notice of Privacy Practice” that tells you about privacy of your medical records and personal health information rights and explains how we protect the privacy of your health information.
• Look at medical records held at the plan, and to get a copy of your records.
• Ask Aetna to make additions or corrections to your medical records.
• Know how your health information has been given out and used for non-routine purposes.
• For a list of the providers in the plan’s network, see the Provider Directory. For more detailed information about our providers, you can call Member Services or visit aetnamedicare.com.

Input
• Suggest changes in the plan’s policies and services, including our Member Rights and Responsibilities policy.

As an Aetna Medicare Advantage HMO and PPO plan member without a prescription drug benefit, you have a responsibility to:

Exercise your rights
• Learn about your coverage and the rules you must follow to get care as a member.
• Follow instructions.
• Tell your doctor or other health care providers that you’re enrolled in our plan. Show you membership card whenever you get your medical care.
• Give your doctor and other health care providers the information they need to care for you.
• Follow the treatment plans and instructions that you and your doctors agree upon.
• Act in a way that supports the care given to other patients and helps the smooth running of your doctor’s office, hospitals and other offices.
• Tell our plan if you have additional health insurance and use all of your insurance coverage.
• Pay your plan premiums and copayments/coinsurance for your covered services.
• Pay for services that aren’t covered.

Communicate
• If you have any questions, ask your doctors and other health care providers and have them explain your treatment in a way you can understand.
• Let Aetna know if you move.
• Let us know if you have any questions, concerns, problems or suggestions.

Physician–member communications policy
Aetna’s contracts for participating providers do not contain “gag clauses,” and nothing about the contract should be interpreted as preventing the physician or other health care professional from discussing issues openly with their patients. In 1996, we began including language in our contracts to promote open physician–patient communication. At that time, physicians and other health care professionals were informed of our policy, which is designed to give our members the comfort of knowing their physicians and other health care professionals have the right and the obligation to speak freely with them.

Aetna’s contracts contain positive communication language. They read: “Physician shall have the right and is encouraged to discuss with his or her patients pertinent details regarding the diagnosis of the patient’s conditions, the nature and purpose of any recommended procedure, the potential risks and benefits of any recommended treatment, and any reasonable alternatives to such recommended treatment.”

If you have questions regarding this issue, contact your local Aetna office.

We recently revised our physician contracts, making them easier to understand. Those new contracts are being filed with the applicable regulatory agencies and implemented across the country.

Privacy practices
Protecting our members’ health information is one of Aetna’s top priorities. To this end, we notify our members about our policy regarding the confidentiality of member information. As a participating physician or health care professional, you should be aware that we distribute the following notice to our members:

Notice of Privacy Practices
We consider personal information to be confidential and have policies and procedures in place to protect against unlawful use and disclosure. By “personal information,” we mean information that relates to a patient’s physical or mental health or condition, the provision of health care to the patient, or payment for the provision of health care to the patient. Personal information does not include publicly available information or information that is available or reported in a summarized or aggregate fashion but does not identify the patient.

When necessary or appropriate for your care or treatment, the operation of our health plans or other related activities, we use personal information internally, share it with our affiliates and disclose it to health care professionals (doctors, dentists, pharmacies, hospitals and other caregivers), payers (health care provider organizations, employers who sponsor self-funded health plans or who share responsibility for the payment of benefits, and others who may be financially responsible for payment for the services or benefits you receive under your plan), other insurers, third-party administrators, vendors, consultants, government authorities and their respective agents. These parties are required to keep personal information confidential, as provided by applicable law. Participating network physicians and health care professionals are also required to give you access to your medical records within a reasonable amount of time after you make a request.

Ways in which personal information is used include: claims payment; utilization review and management; coverage reviews; coordination of care and benefits; preventive health, early detection, and disease and case management; quality assessment and improvement activities; auditing and anti-fraud activities; performance measurement and outcomes assessment; health claims analysis and reporting; health services research; data and information systems management; compliance with legal and regulatory requirements; formulary management; litigation proceedings; transfer of policies or contracts to and from other insurers, HMOs, and third-party administrators; underwriting activities; and due diligence activities in connection with the purchase or sale of some or all of our business.

We consider these activities key for the operation of our health plans. To the extent permitted by law, we use and disclose personal information as provided above without patient consent. However, we recognize that many patients do not want to receive unsolicited marketing materials unrelated to their health benefits. We do not disclose personal information for these marketing purposes unless the patient consents. We also have policies addressing circumstances in which patients are unable to give consent.

For a copy of our Notice of Privacy Practices, which describes in more detail our practices concerning use and disclosure of personal information, call the toll-free Member Services number on the member’s ID card or visit our public website.

*To the extent any older agreements may still include any such clauses, we are not enforcing these provisions.
Provider obligations to obtain consent for billing of non-covered services or benefits

Some services are not covered for members because such services are not covered under the member’s plan of benefits. Typical examples are those services that are considered experimental and/or investigational (Medical Clinical Policy Bulletins for examples). If you intend to provide non-covered services to the member, please refer to your provider agreement for information about your obligations to (1) inform the member that the services will not be covered and (2) obtain member’s prior consent in writing to pay for the specified services.

Office management

Participating practitioner medical record criteria

Organization

- Each page has member’s name and date of birth on it.
- The member’s name and date of birth should be recorded on each page of the medical record (e.g., all notes, lab reports and consult reports). (1 point)
- Member’s personal data (gender, date of birth, address, occupation, home/work phone numbers, marital status) is documented.
- Each record must contain appropriate biographical/personal data including age, sex, race, address, employer, home and work telephone numbers, ICE contact and marital status.

All members must have their own chart — no family charts. (1 point)
- A centralized medical record for the provision of prenatal care and all other services must be maintained (prenatal only). (1 point)
- All entries in the record contain author’s signature or initials or electronic identifier (stamped signatures are not acceptable). *
- The provider of service for face-to-face encounters must be appropriately identified on medical records via their signature and physician specialty credentials (e.g., MD, DO, DPM, etc.). Examples of acceptable physician signatures are: handwritten signature or initials; electronic signature with authentication by the respective provider; or facsimiles of original written or electronic signatures.

*This item is assessed for Medical Record Keeping Practices based on National Committee for Quality Assurance (NCQA), CMS, regulatory and Aetna guidelines.
• All entries are legible to someone other than the writer.*
• All entries are dated. (1 point)*
• Up-to-date problem list is completed including significant illnesses and medical and psychological conditions.*
• Medication allergy and adverse reactions or lack thereof prominently noted.*
• Allergies and adverse reactions to medications are prominently noted in chart or the lack thereof is noted as NKA (no known allergies) or NKDA (no known drug allergies). (1 point)
• An immunization record has been initiated for children and history for adults.
• Preventive screenings and services offered according to Aetna guidelines.*
• Documentation about advance directives (whether executed or not) is in a prominent place in the member’s record (except for under age 18).*
• Treatment Plan is documented.*
• Working diagnoses are consistent with findings.*

*This is assessed for Medical Record Keeping Practices based on National Committee for Quality Assurance (NCQA), CMS, regulatory and Aetna guidelines.
• No evidence member is at inappropriate risk. Possible risk factors for member relevant to particular treatment are noted.*
  - There is no evidence that the member is placed at inappropriate risk by a diagnostic or therapeutic procedure. Diagnostic and therapeutic procedures are appropriate for the member’s diagnosis and risk factors. Examples: a) Member has complaint of right hip pain and an X-ray of the right hip is ordered. b) Abnormal lab and imaging study results do not have an explicit note regarding follow-up plans. (1 point)

Examination
• Blood pressure, weight, height, BMI value or BMI percentile measured and recorded at least annually, if member accesses care. (1 point)

Studies
• Lab and other studies are ordered, as appropriate.
  - If a diagnostic service (test or procedure) is ordered, planned, scheduled, or performed at the time of the E/M encounter, the type of service, for example, lab or X-ray should be documented. (1 point)
• Evidence that physician has reviewed lab, X-ray or biopsy results (signed or initialed reports) and member has been notified of results before filing in the record. (1 point)
  - There is evidence of physician review of lab, X-ray or biopsy results or other studies by either signing or initialing reports or documentation of the results in the progress notes. Abnormal lab and imaging study results have an explicit note regarding follow-up plans. (1 point)

Communication
• Documentation of communications contact with referred specialist.*
  - The PCP or managing practitioner coordinates and manages the care of the member. If a consultation/referral is made to a specialist, there is documentation of communication between the specialist and the PCP with notation that physician has seen it. And there is evidence of discharge summaries from hospitals, HHAs and SNFs, if applicable. If there is no evidence of referral or other facility services, mark N/A. (1 point)
• Documentation indicating the patient’s preferred language (California only).*
• Documentation of offer of a qualified interpreter, and the enrollee’s refusal, if interpretation services are declined (California only).*

Aetna’s benefits plans
Aetna Benefit Products booklet
An easy-to-use tool that puts basic Aetna benefits product information at your fingertips. It provides clear, concise information about our plans:
• PCP selection and referral requirements
• Precertification instructions
• Laboratory and radiology services
You can access the Aetna Benefits Products booklet (ABP) on our public website.

Note: The term “precertification” (used here and throughout the office manual) means the utilization review process to determine whether the requested service, procedure, prescription drug or medical device meets our clinical criteria for coverage. It does not mean precertification as defined by Texas law, as a reliable representation of payment of care or services to fully insured HMO and PPO members.

Coordination of benefits
Coordination of benefits (COB) is a plan provision that establishes a uniform order of benefits determination under which plans pay claims. It reduces duplication of benefits and provides greater efficiency in the processing of claims when a person is covered under more than one plan.

The goal of COB is to make sure that the combined payments of all plans do not add up to more than the covered health care expenses.

There are two primary ways to calculate benefits**:
• 100 Percent Allowable (Standard Allowable Calculation)
  - The benefits paid by both plans will equal no more than the allowable expense.
  - An allowable expense is defined as any necessary and reasonable health expense, part or all of which is covered under any of the plans covering the person for whom the claim is made.
• Maintenance of Benefits (MOB)
  - Under MOB, a secondary plan may reduce its benefits to the lesser of:

*This is assessed for Medical Record Keeping Practices based on National Committee for Quality Assurance (NCQA), CMS, regulatory and Aetna guidelines.
**State mandates may apply.
What it would have paid had it been primary, or what it would have paid less the primary plan’s payment.

<table>
<thead>
<tr>
<th>If the primary plan benefit is</th>
<th>Then</th>
</tr>
</thead>
<tbody>
<tr>
<td>Equal to or more than Aetna’s benefit</td>
<td>Aetna will not pay a benefit</td>
</tr>
<tr>
<td>Less than Aetna’s benefit</td>
<td>Aetna will pay the difference between the primary plan’s benefit and Aetna’s benefit</td>
</tr>
</tbody>
</table>

Aetna is responsible for coordinating benefits based on the member’s benefits plan and its contract with the physician or other health care professional. The primary carrier’s negotiated fee is not used to determine Aetna’s normal benefits. See the following example:

<table>
<thead>
<tr>
<th>Primary plan contract with physician</th>
<th>Aetna contract with physician</th>
</tr>
</thead>
<tbody>
<tr>
<td>$1,500 billed charges</td>
<td>$1,500 billed charges</td>

<td>$1,200 Aetna’s negotiated fee</td>
</tr>
<tr>
<td>x 80% coinsurance rate</td>
<td>x 80% coinsurance rate</td>
</tr>
<tr>
<td>$800 primary plan’s payment</td>
<td>$960 Aetna’s normal benefit</td>
</tr>
<tr>
<td>- $800 primary plan’s payment</td>
<td>- $800 primary plan’s payment</td>
</tr>
<tr>
<td>$160 Aetna’s payment</td>
<td>$160 Aetna’s payment</td>
</tr>
</tbody>
</table>

**Birthday Rule**

Aetna follows the Birthday Rule for all employer groups and provider contracts regarding dependent children of parents not separated or divorced:

- The benefits of the plan of the parent whose birthday falls earlier in a year are determined before those of the plan of the parent whose birthday falls later in the year.
- If both parents have the same birthday, the benefits of the plan that covered the parent longer are determined before those of the plan that covered the other parent for a shorter period of time.
- If the other plan does not follow the Birthday Rule COB provision, but instead has a Gender Rule (e.g., the plan of the father is primary) and if, as a result, the plans do not agree on the order of benefits, both carriers must come to an agreement on the benefit each plan pays. (Aetna will contact the other carrier to discuss an agreed payment arrangement.)

**Medicare Secondary Payer**

Medicare Secondary Payer (MSP) is the term used by Medicare when Medicare is not responsible for paying claims first. Under MSP, active employee group plans with 20 employees or more are the primary payers of benefits when individuals are covered by both employer plans and Medicare because of age (but are actively working), disability or renal disease (during the ESRD coordination period).

The correct order of claims determination is established by identifying the type of Aetna coverage and the reason for Medicare entitlement.

**Medicare/Medicaid dual eligibles**

“Dual eligibles” are individuals who are entitled to Medicare Part A and/or Part B and who are also eligible for some form of Medicaid benefit.

**Medicare/Medicaid relationship**

People with Medicare who have limited income and resources may get help paying for their out-of-pocket medical expenses from their state Medicaid program. There are various benefits that may be available to “dual eligibles.” These benefits are sometimes also called “Medicare Savings Programs.”

For people who are eligible for full Medicaid coverage, the Medicaid program supplements Medicare coverage by providing certain services and supplies that are covered under their state’s Medicaid program. Services or supplies that are covered by both programs will be paid first by Medicare and the difference will be paid by Medicaid, up to the state’s payment limit.

Medicaid also covers additional services (e.g., nursing facility care beyond the 100-day limit covered by Medicare, prescription drugs, eyeglasses and hearing aids). Limited Medicaid benefits are also available to pay for out-of-pocket Medicare cost-sharing expenses for certain other Medicare beneficiaries.

**Medicare Advantage**

Dual eligibles receive their prescription drug benefit (Part D) through Medicare. Dual eligibles may enroll in stand-alone Medicare prescription drug plans (PDPs) or Medicare Advantage (MA) plans that incorporate a prescription drug benefit (MA-PDs). Aetna offers both types of insurance products to Medicare-eligible beneficiaries.

If a dual eligible enrolls in an Aetna Medicare Advantage plan, then the provider must bill Aetna as primary payer and the state Medicaid plan as secondary payer. The provider must notify patients prior to providing services if the provider does not accept payments from state Medicaid plans as payment in full.

**Medicare Part D plans**

To the extent that an individual is covered under both a Medicare prescription drug plan offered under Part D of the Medicare program (“Medicare Part D”) and another health

**Note:** State mandates take precedence over Aetna standards.
plan that provide prescription drug coverage or financial assistance to Medicare Part D-eligible individuals (including non-Medicare individual market insurance policies), covered benefits must be coordinated between such plans in accordance with CMS requirements and any subsequent guidance from CMS.

Working aged
The “working aged” are employed people age 65 or older, and people age 65 or older with employed spouses of any age, who have Employer Group Health Plan (EGHP) coverage because of their or their spouse’s current employment.

Aetna is the primary payer to Medicare for the “working aged” if the employer group has 20 or more employees. If the employer group has fewer than 20 employees, Aetna is secondary payer to Medicare, except for certain multi-employer plans.

Motor vehicle accident
Benefits for injuries caused by a motor vehicle accident and compensable through the Personal Injury Protection (PIP) section of the patient’s no-fault automobile insurance policy are primary over Aetna. If automobile insurance is not available to the patient and Aetna policies, procedures and programs were followed, Aetna would consider the auto-related services for coverage.

Some states give the insured an option to choose their primary coverage for PIP. If the insured elects Aetna over their automobile insurance company, Aetna will require proof that the insured has elected Aetna as primary insurer at the time the accident occurred. All procedures must be covered services and referred by the patient’s primary care physician, when applicable (excluding emergency procedures). All Aetna policies, procedures and programs must be followed for benefits consideration.

Patients who have a motor vehicle accident, and whose Aetna coverage is secondary to PIP, should still have all care coordinated through the primary care physician (if applicable). The primary care physician should issue referrals to participating physicians and health care professionals and place the information in the patient’s file.

ICD-10 and 5010
ICD-10 conversion
Two rules will help the nation transition to an electronic health care environment. They were released by the Department of Health and Human Services (HHS), under the Administrative Simplification Provision of HIPAA on January 15, 2009.

They are:
- Updated standards for electronic health care and pharmacy transactions (5010/D.0). These took effect on January 1, 2012.
- New diagnosis and procedure coding standards (ICD-10 Clinical Modification [CM] and ICD-10 Procedure Coding System [PCS]). These took effect on October 1, 2015.

More information on ICD-10 is available on our public website.

Medical record documentation: Standards and criteria
Our participation agreements require you to treat personal health information (PHI) as confidential. PHI includes: identity of the individual; the relationship of the individual with Aetna; physical or behavioral health status or condition; and payment information for the provision of health care.

Aetna established medical record criteria to provide a guideline for fundamental elements of organization, documentation of diagnostic procedures and treatment, communication and storage of medical records. These criteria are applicable to all benefits plans. Performance goals are established to assess the quality of medical record-keeping practices, and audits are conducted no less than every two years. Aetna’s performance goal is 85 percent compliance.

Our participation agreements require you to maintain medical records in a current, detailed, organized and comprehensive manner in accordance with customary medical practice, applicable laws and accreditation standards. This requirement survives the termination of the contract, regardless of the cause for termination. You must keep our members’ information confidential and stored securely. You must also ensure your staff members receive periodic training on member information confidentiality. Only authorized personnel should have access to medical records.

Aetna has the right to access confidential medical records of Aetna members, for the purpose of claims payment, assessing quality of care, including medical evaluations and audits, and performing utilization management functions. Medical records may be requested as a part of Aetna’s participation in the Healthcare Effectiveness Data and Information Set (HEDIS). HIPAA privacy regulations allow for sharing of PHI for purposes of making decisions around treatment, payment or health plan operations.

Maintenance of information and records requirements
Provider agrees:

a) to maintain information and records in a current, detailed, organized and comprehensive, accurate and timely manner and according to customary medical practice, applicable Federal and state laws, and accreditation standards;

b) that all member medical records and confidential information will be treated as confidential and according to applicable laws, including but not limited to, the requirements set forth in 42 C.F.R. §§ 422.118 and 423.136; and

c) to maintain the information and records for the longer of six (6) years after the last date provider services were provided to member, or the period required by applicable law.

This requirement survives the termination of your agreement, regardless of the cause of the termination.
How to interpret a member ID card
There are several types of cards, which differ by member ID number style and copayment information. Note the information on member ID cards may also vary depending on several factors, including the plan sponsor’s benefits selections, state mandates and plan availability. To find these tools, go to Digital ID card help guide.

Member identification and verification of eligibility
The following are ways to identify whether a patient is an Aetna plan member.

Digital ID cards
Members can access and view their digital ID cards within 24 hours after the effective date using the Aetna Mobile app, their member website at aetna.com. Members can easily print replacement ID cards from Aetna Navigator. Digital ID cards are identical to plastic ID cards.

Member ID cards
• Members should receive an ID card within four weeks of enrollment. At each visit, the office should ask to see the member’s ID card and collect the appropriate copayment, as applicable. Note: Some members will have digital ID cards. These members may present their mobile device or a printed copy when seeking health care services.
• Members can access and print some of the information that appears on their ID card via the Instant Eligibility feature on their Aetna Navigator® member website, including:
  - Member ID number
  - Member name
  - Group number
  - Member Services telephone number(s)
  - Claims address
• Providers can access and print member ID cards from our secure provider website on NaviNet. Note: Your security officer must enable this feature for you.
  - To access the electronic image of the card, the user must first submit an eligibility request for a member.
  - When a successful eligibility response is returned, an image of a generic ID card will display on the response screen.
  - When the image is clicked, users will be presented with a copy of the actual member ID card.
  - The image can then be downloaded to a local computer or network as well as printed, saving time and additional work associated with card scanners and photocopying ID cards.

A paper or digital version of the member’s information should be accepted in lieu of an actual member ID card. No ID card? Use eligibility and enter the patient’s name and date of birth to easily find patient coverage and detailed benefits information. It’s accurate and provides greater detail than the ID card.

Group enrollment form
• Members may present a copy of a group enrollment form to your office, which should be accepted as a temporary ID until their member ID card is received. This temporary form is valid for 30 days after the effective date specified on the form.
• Federal Employees Health Benefits Program (FEHBP) members may present to your office a copy of the Federal Form 2809 Enrollment Form or an electronic confirmation of their enrollment from Employee Express or Annuitant Express.
• When accepting this temporary form of identification, note the following:
  - Primary care physicians should check the form to ensure their Aetna primary care office number is designated (if applicable for plan). If the incorrect doctor or office is listed, claims may be denied or payments may be misdirected.
  - Examine the form to verify the correct copayment.
  - Verify the plan sponsor’s signature is present on the bottom of the form.
  - With the EZenroll® online enrollment option, members may enroll with Aetna via the Internet. Members fill out the application online and send it to their employer, who submits it electronically to Aetna. As proof of enrollment, members should present an enrollment validation form printed from their personal printer. The EZenroll option is not available to Aetna Medicare Plan (HMO) members or in certain states.

Note: USAccess®, Open Access HMO, Aetna Choice POS, Aetna Choice POS II, and Aetna Medicare Plan (PPO) members are not required to select a primary care physician. However, these members are encouraged to select a primary care physician so they can take advantage of certain programs that require members to access care through their primary care physician.

Newborn enrollment
This policy applies to most plans, excluding Medicare Advantage plans. Contact Member Services for additional information on newborn enrollment. Members are instructed to contact their human resources department to find out their employer’s rule for the time frame to enroll a newborn.

Members are required to list the selected primary care office for the newborn on the newborn’s enrollment form.

Note: FEHBP members under FEHBP guidelines do not need to complete an enrollment form if they are currently enrolled for “family” coverage. FEHBP members should call Member Services to add additional members to a family contract.

It may take several weeks to process the newborn’s member ID card once the newborn is enrolled. In the interim, use the mother’s or father’s member ID card when administering care to the newborn. If the newborn does not receive his or her own member ID card after the appropriate time frame, check for a digital ID card using Aetna Navigator, Aetna Mobile or aetna.com. You can also contact Member Services with the appropriate number on the subscriber’s ID card. If the subscriber does not enroll the child as a dependent within the appropriate time frame, the subscriber must wait until their next open enrollment period to enroll the child and the child will not be eligible for coverage in the interim.

Note for primary care physicians: If your office provided routine newborn hospital care, submit your bill electronically or on a CMS-1500 form to Aetna. If a referral is necessary for a newborn
Provider accessibility standards

Primary care provider responsibilities
Each primary care provider (PCP), if any, providing covered services under your agreement will comply with the following:

PCPs will arrange and coordinate the overall provision of covered services to members under the terms and conditions of the applicable plan. PCPs will provide or arrange for the provision of covered services, including, without limitation, urgently needed services or emergency services, regardless of whether the PCPs has previously seen or treated the member.

Aetna has established standards for member access to primary care services. Each primary care practitioner is required to have appointment availability within the following time frames:

- Regular or routine care: within 7 calendar days
- Urgent complaint: same day or within 24 hours

In addition, all participating primary care physicians must have a reliable 24/7 answering service or machine with a notification system for call-backs. A recorded message or answering service that refers members to emergency rooms is not acceptable. More stringent state requirements supersede these accessibility standards.

Specialty care provider responsibilities
Aetna has established standards for member access to specialty care services. Each specialty care practitioner is required to have appointments available with the following time frames:

- Routine care: within 30 calendar days
- Urgent complaint: same day or within 24 hours

In addition, all participating specialty care physicians must have a reliable 24/7 live answering service or machine with a notification system for call-backs. A recorded message or answering service that refers members to emergency rooms is not acceptable. More stringent state requirements supersede these accessibility standards.

Physician-requested member transfer
Circumstances may necessitate a participating physician to ask an Aetna member to leave their practice when persistent problems prevent an effective physician–patient relationship. Such requests cannot be based solely on the filing of a grievance, an appeal, a request for external review or other action by the patient related to coverage, high utilization of resources by the patient, or any reason that is not permissible under applicable law.

The following steps must be taken when requesting a specific physician–patient relationship be terminated:

- The physician must send the patient/member a letter informing him or her of the termination and the reason(s) for the termination. A copy of this letter must also be sent to your local Aetna network manager. For the mailing address, call your local Aetna office or 1-800-872-3862. The physician’s letter to the member should be sent by certified mail.

- In the case of a primary care physician, Aetna will send the member a letter informing the member that he or she must select a new primary care physician and providing instructions on how to select another primary care physician.

- Consistent with the American Medical Association Code of Medical Ethics, Opinion 8.115, the physician must support continuity of care for their patient by giving the patient sufficient notice and opportunity to make other arrangements for care.

In addition, upon request, within 30 days of initial request by the physician, the physician shall provide resources or recommendations to the patient to help locate another participating physician, and offer to transfer records to the new physician upon receipt of a signed patient authorization.

Primary care provider responsibilities
Each primary care provider (PCP), if any, providing covered services under your agreement will comply with the following:

- PCPs will arrange and coordinate the overall provision of covered services to members under the terms and conditions of the applicable plan.
- PCPs will provide or arrange for the provision of covered services, including, without limitation, urgently needed services or emergency services, regardless of whether the PCP has previously seen or treated the member.

Provider office panel status changes
Follow this procedure to change the enrollment status of your office:

- Send a letter to your local Aetna office notifying us of your request. For the mailing address, call your local Aetna office or 1-800-872-3862. There are two exceptions to this rule:
  - In Oklahoma and Texas, mail correspondence to our Provider Service Center or call Member Services.
  - In Connecticut, Massachusetts, Maine, New Hampshire, northern New Jersey, New York, Rhode Island and Vermont, contact the Provider Service Center or your network account manager.

- Indicate the status you are requesting for your office:
  - Open: Your office is open and accepting all Aetna patients.
  - Accepting current patients only: Your office is not accepting any new Aetna members unless the member is currently a patient in your practice.
  - Frozen: Your office is not accepting any new Aetna members as patients even if the patient is currently a patient in your practice under another type of coverage. ("Frozen" status does not apply to primary care offices in Connecticut, Massachusetts, Maine, New Hampshire, New Jersey, New York, Rhode Island and Vermont.)
Provider capacity
Provider will give notice, at the earliest possible time, to Company of any significant changes in the capacity of group or group providers to provide or arrange for the provision of covered services to members as contemplated by your agreement, including, but not limited to, any material reduction in the number of group providers.

Closed panel
Provider and Company agree that a broad selection of physicians is important to members and that members expect physicians listed in Company’s directories to be available. Therefore, only upon at least ninety (90) days prior written notice with good cause acceptable to Company, provider or any group provider may prospectively decline to accept new members as patients. To prevent discrimination against Company or its members, for such time as provider or a group provider declines to accept new members as patients, the provider or group provider will not accept as patients additional members from any insurer, entity or organization which competes with Company.

Requirements:
• We require 90-day advance written notice of a change in the enrollment status of an office.
• To prevent discrimination against Company or its Members, for such time as Provider or a Group Provider declines to accept new Members as patients, such Provider or Group Provider shall not accept as patients additional members from any insurer, entity or organization which competes with Company.
• Provider shall provide, at the earliest possible time, notice to Company of any significant changes in the capacity of Group or Group Providers to provide or arrange for the provision of Covered Services to Members as contemplated by this Agreement, including, but not limited to, any material reduction in the number of Group Providers.

Provider identification numbers
To comply with HIPAA regulations, providers who are required to have an NPI should include their NPIs on HIPAA standard transactions. The HIPAA standard transactions initiated by medical providers are:
• Claims
• Encounter
• Eligibility and benefits inquiry
• Claims status inquiry
• Precertification add
• Referral add

In addition to an NPI, claims must also include the billing provider’s tax identification number (TIN).

Share your NPI
If you’re a provider who’s required to have an NPI, make sure you share your NPI with us. In addition, share your NPI with other providers who may need it to conduct electronic claims, referrals or precertification requests.

Aetna provider identification number (PIN)
Physicians, hospitals and health care professionals contracted with us also have an Aetna-assigned PIN which is used in our internal systems. Although the NPI should be used in electronic transactions for purposes of identifying yourself as a provider, you can use your PIN or TIN to identify yourself when contacting us by other means.

Note: The term “precertification” (used here and throughout the office manual) means the utilization review process to determine whether the requested service, procedure, prescription drug or medical device meets our clinical criteria for coverage. It does not mean precertification as defined by Texas law, as a reliable representation of payment of care or services to fully insured HMO and PPO members.

Recredentialing
We use a standard application and a common database called the Council For Affordable Quality Healthcare (CAQH) to gather credentialing information.

Our recredentialing process
We reassess a provider’s qualifications, practice and performance history every three years, depending on state and federal regulations and accrediting agency standards. This process is seamless to providers who are due for recredentialing and whose applications are complete within CAQH.

We’ll send providers (whose applications aren’t complete within CAQH) three reminder letters. The letters will ask them to update their recredentialing data. If they don’t respond to the letters, we’ll call them.

How can I check the status of my recredentialing application?
Call our Credentialing Customer Service department at 1-800-353-1232.

Adding a new provider to your group
Go to the Join the Network section of our website to start the application process.

OrthoNet Prepay Audit Program
We use OrthoNet to review our members’ medical records before certain claims are processed. When a claim is selected for review, we’ll ask the provider for copies of the patient’s medical records. OrthoNet will compare the claims coding to the services provided.

Affected specialties:
• Orthopedic surgery
• Neurosurgery
• Hand surgery
• Podiatry
• Plastic surgery
• ENT
• Neurology
• Physiatry
• Sports medicine
• Pain management
• Dermatology
• Urology
Where to send Aetna records
If your office is asked to send records to Aetna, you can:

- Attach records using EDI/Navinet or other approved vendor
- Fax to 859-455-8650 (Aetna central fax)
- Mail to Aetna, PO Box 14079, Lexington, KY 40512-4079

When faxing or mailing records, be sure to include a cover sheet with “CODE: ONET” at the top of the page. We’ll also need the following information:

- Aetna member ID
- Date of service
- Servicing provider name
- Servicing provider tax identification number and/or Aetna provider ID number

Patient management and acute care

Overview
Aetna’s Patient Management and Acute Care model integrates available programs and services. This includes case management, disease management and specialty areas such as behavioral health.

Our role is to help coordinate health care and to encourage members to be informed participants in health care decision making.

We provide hospitalized members who are identified for patient management activity with:

- Focused discharge planning to help their transition to the next level of care
• Targeted concurrent review to evaluate and determine the appropriate level of coverage\(^{\text{a}}\) for medical services

Utilization management and standards
Company uses systems of utilization review/quality improvement/peer review to promote adherence to accepted medical treatment standards. And, to encourage participating physicians to minimize unnecessary medical costs consistent with sound medical judgment. Furthermore, provider agrees, consistent with sound medical judgment to:

a) participate, as requested, and to abide by Company’s utilization review, patient management, quality improvement programs, and all other related programs (as modified from time to time) and decisions with respect to all members;

b) regularly interact and cooperate with Company’s nurse case managers;

c) abide by all Company’s participation criteria and procedures, including site visits and medical chart reviews, and to submit to these processes biannually, annually, or otherwise, when applicable;

d) obtain advance authorization from Company prior to any non-emergency admission. And, in cases where a member requires an emergency hospital admission, to notify Company, both according to the Company’s rules, policies and procedures in effect; and

e) the extent required by the terms of the applicable plan, provider will refer or admit members only to participating providers for covered services, and will furnish such participating providers with complete information on treatment procedures and diagnostic tests performed prior to such referral or admission.

For those members who require services under a specialty program, provider agrees to work with Company in transferring the member’s care to a specialty program provider.

How to contact us for specific utilization management issues
• Staff, including medical directors, are available to receive provider and member inquiries about UM issues during and after business hours via toll-free telephone numbers.

• Health care providers may contact a representative during normal business hours (8 a.m. to 5 p.m., Monday through Friday**) by calling the toll-free precertification number on the member ID card.

• When only a Member Services number is on the card, you’ll be directed to the Precertification Unit through a phone prompt or a Member Services representative.

• Members and providers may access staff on weekends, company holidays, and after business hours through the same toll-free telephone numbers.

Utilization review policies
Utilization review policies, including precertification, concurrent review and discharge planning, and retrospective review, are located on our public website.

How we determine coverage
Aetna medical directors make all coverage denial decisions that involve clinical issues. Only licensed Aetna medical directors, dentists, oral and maxillofacial surgeons, psychiatrists/psychologists, and pharmacists make denial decisions for reasons related to medical necessity. (Licensed dentists, pharmacists and psychologists review coverage requests as permitted by state regulations.) Where state law mandates, utilization review coverage denials are made, as applicable, by a physician or pharmacist licensed to practice in that state.

Patient Management staff use evidence-based clinical guidelines from nationally recognized authorities to guide utilization management decisions involving precertification, inpatient review, discharge planning and retrospective review. Staff use the following criteria as guides in making coverage determinations, which are based on information about the specific member’s clinical condition:

• MCG™ guidelines (Seattle, WA: MCG Health, LLC)

• Clinical Policy Bulletins (CPBs) or Pharmacy Clinical Criteria — Clinical Policy Bulletins (PCPBs) (based on peer-reviewed published medical literature)

• Centers for Medicare & Medicaid Services (CMS) National Coverage Determinations (NCD), Local Coverage Determinations (LCD) and the Medicare Benefit Policy Manual

• NCCN Guidelines (Category 1 and 2A recommendations)

• Level of Care Assessment Tool (LOCAT)

• Applied Behavior Analysis (ABA) Medical Necessity Guide

• American Society of Addiction Medicine (ASAM) Third Edition Criteria — copyrighted but can be purchased by contacting:

American Society of Addiction Medicine
4601 North Park Ave
Upper Arcade Suite 101
Chevy Chase, MD 20815
Telephone: 301-656-3920
Fax: 301-656-3815
Contact ASAM at email@asam.org.

• The Standards for Reasonable Cost Control and Utilization Review for Chemical Dependency Treatment Centers (28 TAC §§3.8001-3.8030) (formerly known as TCADA), used in place of ASAM for chemical dependency treatment provided in Texas; and The Level of Care for Alcohol and Drug Treatment Referral (LOCADTR), used in place

*For these purposes, “coverage” means either the determination of (1) whether or not the particular service or treatment is a covered benefit pursuant to the terms of the particular member’s benefits plan, or (2) where a provider is required to comply with Aetna’s utilization management programs, whether or not the particular service or treatment is payable under the terms of the provider agreement.

**All continental U.S. time zones; hours of operation may differ based on state regulations. Texas: 6 a.m. to 6 p.m. CT, Monday through Friday, and 9 a.m. to noon CT on weekends and legal holidays. Phone recording systems are in use for all other times.
of ASAM for chemical dependency treatment provided in New York

Participating physicians may ask for a hard copy of the criteria that were used to make a determination by contacting our Provider Service Center at 1-888-632-3862.

We base decisions on the appropriateness of care and service. We review coverage requests to determine if the requested service is a covered benefit under the terms of the member’s plan and is being delivered consistent with established guidelines. Aetna offers providers an opportunity to present additional information and discuss their cases with a peer-to-peer reviewer, as part of the utilization review coverage determination process. The timing of the review incorporates state, federal, CMS and NCQA requirements. If we deny a request for coverage, the member (or a physician acting on the member’s behalf) may appeal this decision through the complaint and appeal process. Depending on the specific circumstances, the appeal may be made to a government agency, the plan sponsor or an external utilization review organization that uses independent physician reviewers, as applicable.

Aetna does not reward physicians or other individuals who conduct utilization reviews for issuing denials of coverage or for creating barriers to care or service. Financial incentives for utilization management decision-makers do not encourage denials of coverage or service. Rather, we encourage the delivery of appropriate health care services. In addition, we train Utilization Review staff to focus on the risks of underutilization and overutilization of services. Aetna does not encourage utilization-related decisions that result in underutilization.

Admissions protocol

In the case of referred care, the admitting physician must electronically submit or contact Aetna for preadmission precertification. In the case of self-referred care, the member must contact Aetna. Our precertification staff also takes calls from hospital admissions personnel. However, if the preadmission information is not complete, we contact the admitting physician for clarification.

If the admission is precertified for surgical cases, we assign a recommended length of stay (RLOS). This determines when a review will start. For other cases, we give specific guidelines with the admission precertification. The RLOS determination is primarily based on MCG guidelines.

Notify us of hospital admissions within one business day

We need notice of all inpatient admissions, including those through the emergency department, within one business day of the admission. If a patient is unable to provide coverage information, you must contact us as soon as you become aware of their Aetna coverage. You must also explain any extenuating situation. You may contact us by telephone (call the number on the patient’s member ID card) or through electronic data interchange (EDI).

All-products precertification list

Precertification is the process of collecting information before inpatient admissions and certain ambulatory procedures and services. The process facilitates:

- Communicating a coverage decision to the treating practitioner and/or member before the procedure, service or supply
- Identifying members for pre-service discharge planning
- Identifying and registering members for covered Aetna specialty programs, such as case management and disease management, behavioral health, the National Medical Excellence Program and the Beginning Right maternity program.

If we need to review the applicable medical records, we may provide you with, and you need to agree to accept, a precertification reference pending or tracking number. The reference number is not an approval. You will be notified once a coverage decision is made.

Medical records may be submitted using EDI/Navinet or other approved vendor.

You can find more information about our precertification policy on our public website.

You can also access an updated list of services requiring precertification on our public website.

Note: The term “precertification” (used here and throughout the office manual) means the utilization review process to determine whether the requested service, procedure, prescription drug or medical device meets our clinical criteria for coverage. It does not mean precertification as defined by Texas law, as a reliable representation of payment of care or services to fully insured HMO and PPO members.

Case management services

Case management is “a collaborative process of assessment, planning, facilitation, care coordination, evaluation and advocacy for options and services to meet an individual’s and a family’s comprehensive health needs through communication and available resources to promote quality, cost-effective outcomes.” Case management is a standard component of most Aetna medical plans.

Our case managers review and coordinate services for members with multiple and complex needs (e.g., cardiac care, complex pediatric care, complex behavioral health care, medical psychiatric coordination, oncology), and for members who are at risk for high cost or high utilization. We welcome referrals from treating physicians to our case management program. You can submit a referral through the toll–Free phone number on the member ID card or via EDI transactions. Once we decide that a member is right for case management and the member or caregiver agrees to it, we make an

*Precertification may be the member’s responsibility in certain plan types that offer out-of-network benefits. Per Medicare laws, rules and regulations, there is no penalty to Medicare Advantage plan members if they do not get precertification.

**Case Management Society of America.
individualized plan. We work with the member, the member’s family, physician(s), and other health care professional(s).

The assessment process leads to the development of a case management plan that meets the member’s specific needs. The plan includes member-specific deficits, goals and objectives. There are targeted activities to meet these goals and objectives. The case manager helps the member achieve his or her health goals, and they work to resolve any identified issues or barriers. We regularly reassess the plan to determine the member’s progress in meeting the goals and objectives. As the member’s condition progresses or regresses, we modify the plan accordingly. Once the stated goals and objectives are met, the member is discharged from case management. This is usually within an average of 30 to 90 days.

**Clinical practice guidelines (CPGs)**

Aetna adopts evidence-based CPGs from nationally recognized sources. These guidelines have been adopted to promote consistent application of evidence-based treatment methodologies and made available to practitioners to facilitate improvement of health care and reduce unnecessary variations in care. Aetna reviews the CPGs every two years or more frequently if required by state regulations/mandates or if national guidelines change within the two-year period.

The CPGs are provided for informational purposes only and are not intended to direct individual treatment decisions. All patient care and related decisions are the sole responsibility of providers. These guidelines do not dictate or control a provider’s clinical judgment regarding the appropriate treatment of a patient in any given case.

You can access the guidelines from the following links:

- Diabetes
  - Standards of Medical Care in Diabetes
- Heart disease
  - 2012 Guideline for the Diagnosis and Management of Patients With Stable Ischemic Heart Disease
  - 2014 Focused Update
- Chronic Pain
  - Prescribing Opioids for Chronic Pain

**Coordination of care**

**Importance of collaboration**

Aetna monitors and seeks to improve coordination and collaboration between treating providers of care. Results from our annual Physician Practice Surveys have shown that physicians continue to be concerned that they do not regularly receive reports about their patients’ ongoing evaluation and care from other practitioners and facilities. These include medical specialists, behavioral health practitioners, skilled nursing facilities, home health agencies, surgical centers or hospitals. The increased focus on patient safety in the medical community also highlights the critical nature of improving collaboration between treatment providers.

**Sharing patient information**

Increased treatment compliance and improved outcomes have been attributed, in part, to collaboration between providers.

In addition, the quality of communication is rated as an important factor considered by primary care physicians when choosing a specialist to whom they can refer their patients.

To this end, we strongly encourage you to send progress notes and discharge summaries to your patients’ other treating practitioners. Forms are available on our provider website and include the following:

- The Physician Communication Form and the Specialist Consultation Form can be used to share information between primary care and specialty physicians to document a patient’s diagnosis, medications, procedures and status.
- The Behavioral Health/Medical Provider Communication Form helps behavioral health providers share information about a patient’s treatment plan with primary care physicians. Providers can use the form to pass on detailed information about a patient’s diagnosis, medications and risks/concerns.

**Accessing communication forms**

You can access these forms through the Health Care Professional Forms on our public website under Physician Communications.

We appreciate your efforts to close the communication gap between specialists, facilities and primary care physicians and promote improved patient care and safety.

**Preventive services guidelines**

Aetna adopts nationally accepted evidence-based preventive services guidelines from the U.S. Preventive Services Task Force for healthy adults and children with normal risks (Grade A and B), and immunization schedules from the Centers for Disease Control and Prevention. Where there is a lack of sufficient evidence to recommend for or against a service by these sources, or conflicting interpretation of evidence, we may adopt recommendations from other nationally recognized sources.

We review guidelines every two years or more frequently if required by state regulations/mandates or if national guidelines change within the two-year period.

Health insurance marketplace quality improvement strategy

The Affordable Care Act (ACA) authorizes the creation of Health Insurance Marketplaces (Marketplaces) to help individuals and small employers shop for, select, and enroll in high quality, affordable private health plans. Only qualified health plans (QHPs) may be offered within the Marketplaces. As part of the ACA, QHPs must implement a quality improvement strategy (QIS) if the issuer has been participating in a Marketplace for two or more consecutive years and meets the membership threshold. A QIS is designed to improving health outcomes of plan enrollees and must address improving health outcomes, prevent hospital readmissions, improve patient safety and reduce medical errors, implement wellness and health promotion activities or reduce health and health care disparities.

Transition of care

Transition of care provides a temporary bridge for members at the time of plan enrollment or renewal. Members in an active course of covered treatment that meets clinical coverage criteria/guidelines with a treating provider who falls under one of the below categories are eligible for transition of care coverage consideration:

- Not a contracted provider in the member’s plan
- Not a practitioner designated for inclusion within a tiered network (Aetna Performance Network) or Aexcel® specialty categories when a specific practitioner or provider network is applicable to the member’s plan
- Not included within a plan sponsor-specific network

Additionally, the treating provider must be an individual practitioner (e.g., a specialist, physical therapist, speech therapist) or home care agency in order to be eligible for the transition-of-care process.

Transition of care does not apply to nonparticipating DME vendors or pharmacy vendors. Transition of care does not apply to nonparticipating facilities, with the exception of facilities in which the Aetna contract has terminated (for reasons other than quality issues) and a treating participating practitioner only temporarily has privileges only at the nonparticipating facility.

The transition-of-care process applies to all benefits plans except Traditional Choice. It is also limited to a fixed period of time. Transition of care also applies to members who are in an active course of covered treatment when a physician’s/health care professional terminates participation in the Aetna network.

An “active course of treatment” is defined as a program of planned services that:

- Starts on the date a physician or other health care professional first renders a service to correct or treat the diagnosed condition
- Covers a defined number of services or period of treatment
- Includes a qualifying situation (e.g., surgical follow up)

Procedures for requesting transition of care

The member asks for a Transition Coverage Request Form from Member Services or his or her employer. The member completes the form with help, as needed, from the nonparticipating treating physician.

- The member or nonparticipating treating physician faxes the completed form to the Aetna fax number on the form.
- We review the information and, when necessary, an Aetna medical director evaluates the treatment program and may also contact the treating physician or health care professional.
- We send a letter about the coverage decision to the member and the nonparticipating treating physician or health care professional and, if approved for coverage, the length of time the transition benefits apply. We also send a letter to the member’s primary care physician, as applicable.

Depression in Primary Care Program

Depression often coexists with other serious medical illnesses, such as heart disease, stroke, cancer, HIV/AIDS, diabetes and Parkinson’s disease. Most people do not seek treatment due to the stigma associated with depression. Many of those treated don’t receive appropriate or continued treatment.

Our Depression in Primary Care Program is designed to support the screening for and treatment of depression at the primary care level.

Our program offers your primary care practice:

- A tool to screen for depression as we as monitor response to treatment
- Reimbursement for depression screening and follow-up monitoring
- Patient health questionnaire (PHQ-9) — specifically developed for use in primary care
- PHQ-9 reimbursement

To participate, you just need to be a participating primary care provider, use the PHQ-9 tool to screen your patients and submit claims with the following billing combination: CPT code 96127 (brief emotional/behavioral assessment) in conjunction with diagnosis code Z13.89 (screening for depression). Click here to learn more.

*State variations may exist.
Screening, Brief Intervention and Referral to Treatment (SBIRT) program

Our SBIRT program is designed to support primary care physicians (or other specialty physicians such as OB/GYN physicians or internal medicine physicians) in screening patients for alcohol and substance abuse, providing brief intervention and referring individuals to treatment.

SBIRT is an evidence-based practice used to identify, reduce, and prevent problematic use, abuse, and dependence on alcohol and illicit drugs. We reimburse you for screening and brief intervention. This program is open to Aetna participating primary care physicians treating any patient who is 18 years old or older and has Aetna medical benefits. Click here to get started.

There is an app for that

The SBIRT app is now available as a free download on the App Store for iOS devices.

The app provides evidence-based questions to screen for alcohol, drugs and tobacco use. If warranted, a screening tool is provided to further evaluate the specific substance use. The app also provides steps to complete a brief intervention and/or referral to treatment for the patient based on motivational interviewing.
Performance programs

We use practitioner/provider performance data to help improve the quality of service and clinical care our members receive. Accrediting agencies require that you let us use your performance data for this purpose.

Quality, Accreditation, Review and Reporting Activities

Provider agrees to cooperate with any Company quality activities or review of Company, a Payer or a Plan conducted by, as applicable, the National Committee for Quality Assurance ("NCQA"), the Utilization Review Accreditation Commission ("URAC") or other applicable accrediting organizations, or a state or Federal agency with authority over Company and/or the Plan, as applicable. Provider shall also comply with Healthcare Effectiveness Data Information Set ("HEDIS") and similar data collection and reporting requirements as required by Company.

Aexcel

Aexcel is a designation within the Aetna Performance Network. Aexcel designation helps distinguish physicians in twelve specialty categories who have met certain clinical performance and efficiency standards.

We evaluate participating specialists in the 12 specialty categories at least once every two years for Aexcel designation. The evaluation process is made up of four key components:

• Case volume
• Clinical performance
• Efficiency
• Network adequacy

To learn more, log in to our provider website. Once on the site, go to Aetna Support Center > Doing Business > Aexcel Designation.

Bridges to Excellence®

Through our agreement with Health Care Incentives Improvement Institute, Inc. (HCI3) (formerly Bridges to Excellence [BTE]), physicians may be eligible for bonus payments per patient, per year, for performance in one or more of their BTE programs. HCI3 is a nonprofit company. Its mission is to create significant leaps in the quality of health care. HCI3 recognizes and financially rewards physicians and other health care providers who demonstrate that they are following recognized standards of care for their patients.

We offer incentives for eligible physicians in the following states:

• Arizona
• Texas for the Teacher’s Retirement System (TRS)
• Washington state
These incentives are available to practices specializing in:

- Cardiology
- Endocrinology
- Family practice
- General internal medicine
- Neurology
- Neurosurgery
- Orthopedics

To learn more about Bridges to Excellence and the Aetna recognition program, visit our provider website. Once there, go to Cost and Quality > Get info on Patient Safety and Quality > Bridges to Excellence/Physician Recognition.

**Patient-centered medical home (PCMH)**

PCP practices can participate as a PCMH in three ways:

- Direct contract via an amendment to a physician/group agreement
- Aetna’s external PCMH recognition program
- Multi-health plan collaborative

Each arrangement has its unique components, but they all generally include these two requirements:

- NCQA or other accepted organization’s PCMH recognition, preferably Level 3 with fully implemented electronic medical record (EMR)
- Adherence to the seven principles of PCMH (as promoted by the PCPCC)

These two requirements encompass many requirements and standards such as:

- Case management
- Enhanced access for patients
- ePrescribing
- Measures tracking
- Patient registries

The purpose of these types of arrangements are to:

- Meet the triple aim of improved efficiencies, clinical outcomes, and patient satisfaction.
- Help establish a sufficient amount of PCMH sites to enable Aetna to offer the advantages of a benefits plan featuring PCMHs to plan sponsors. Under this type of plan, members would choose a PCMH PCP practice for their primary care services.

Direct contract is available in all markets to all providers that include PCPs and is executed via a signed amendment to their current participation agreement. The external PCMH recognition program is only available in markets that Aetna decides to implement. These are currently the states of Arizona, Colorado, Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Virginia, Washington and West Virginia, and the cities of Jacksonville and Tampa, Florida, and Cleveland and Columbus, Ohio.

**Multi-health plan collaboratives include:**

- Those promoted by CMS (i.e., MAPCP, CPCl)
- Others where there is local market interest among providers, payers, plan sponsors, and other interested parties, and these parties collectively agree on an arrangement

Aetna currently participates in collaboratives in Colorado; Maine; Hudson Valley, New York; Southeastern Pennsylvania; Maryland/Washington, D.C./Virginia; Cincinnati, Ohio; and Washington state.

**Physician pay for performance (P4P)**

Participation is through a direct contract. It’s available in all markets to all providers that include PCPs. It’s executed via a signed amendment to their current participation agreement.

Our nationally available Physician Performance Incentive Program applies the strengths of our data aggregation and national data repository resources to local-market initiatives. This allows for customized measures and goals.

Annual goals are:

- Negotiated agreements between the provider group and Aetna
- Based on market position and previous year measurements

We provide detailed information on each individual physician’s results on each measure.

Our physician performance incentive programs identify and target areas of opportunity for quality improvement. The objective is to help improve the overall quality, safety and cost-efficiency of health care. These programs set targets for improvements and deliver performance measurement results for:

- Independent practice associations (IPA)
- Physician-hospital organizations (PHO)
- Physician groups

We incorporate group and physician-level data into our online and other tools. This provides actionable, patient-level information to physicians. Physicians earn reward payments only when they either:

- Improve toward their targeted performance results
- Maintain their high-performing levels of achievement

We annually reset target goals and, in some cases, add and/or drop measures. In most programs, physicians are not paid for this component of their compensation until we have measured and compared their performance to targets. As a result, performance payments are not included in initial claims payments.

More broadly, we believe that performance incentive program success requires:

- Clear and specific understanding between payers and providers on the parameters of the program’s measurements, incentive opportunities and targets
- National, consensus measures
- Focus on continuous quality improvement
• Commitments to retire measures after there have been several periods of top-level performance (e.g., 95 percent and above) and replace them with new measures that have new opportunities for improvement
• Collaboration to identify new sources of actionable information and creative ways to encourage and engage with physicians and physician groups effectively
• Commitment across all commercial payers to include performance incentives in the overall reimbursement strategy, recognizing that when physicians improve their practices, all patients benefit

Pharmacy management

Overview: Pharmacy Plan Drug List (formulary)

Commercial plans
Our pharmacy benefits plans use a Pharmacy Plan Drug List (formulary) to help maintain access to quality, affordable prescription drug benefits for your patients. Many drugs, including drugs on the formulary, are subject to manufacturer rebate arrangements between Aetna and the manufacturers of those drugs.

Coverage is not limited to drugs on the list. In some benefits plans, certain nonpreferred drugs are excluded from coverage, unless a medical exception is first obtained. These drugs are on our Formulary Exclusions List. It is important to note that not all members with Aetna medical benefits have Aetna pharmacy benefits.

Medicare Advantage plans
The Medicare prescription drug formularies can be found at the following links:
• Individual MA-PD plan and PDP members
• Group MA-PD plan and PDP members

Aetna Rx Home Delivery mail-order pharmacy
Aetna Rx Home Delivery is our affiliated mail-order pharmacy. It provides maintenance medications for chronic conditions, such as arthritis, asthma, diabetes, high cholesterol, heart conditions and others. Aetna Rx Home Delivery can send members up to a three-month supply of these medications, with their physician’s approval.

With this service, your patients will enjoy these benefits:
• Convenience: Reorder only once every three months. And Aetna Rx Home Delivery’s website and automated telephone service allow members to order refills, track orders and more.
• Privacy: Prescriptions are discreetly packaged.
• Peace of mind: Pharmacists are available 24 hours a day, every day, to answer members’ questions.
• Savings: Depending on the Aetna pharmacy benefits plan, members may save money by using Aetna Rx Home Delivery mail-order pharmacy, and standard shipping is always available at no additional cost.

How your patients can learn more
To learn more, encourage members to visit our Aetna Navigator member website. Once there, click “Aetna Pharmacy” at the top of the page.
Aetna Specialty Pharmacy

Aetna Specialty Pharmacy is Aetna’s “affiliated” specialty medication pharmacy. It provides specialty medications including injectable, infused and select oral therapies.

Specialty medications are unique because they treat certain complex diseases. These conditions include anemia, hepatitis C, multiple sclerosis, cancer, rheumatoid arthritis and Crohn’s disease, among many others. Specialty medications are often expensive. They may also require refrigeration, special storage and handling and fast delivery, and may not be readily available at retail pharmacies.

Aetna Specialty Pharmacy’s team helps patients manage their therapy

Specialty medications usually carry a risk for side effects, and a risk that members may have trouble complying with their prescribed therapy schedule. For these reasons, the use of specialty medications must be consistently monitored.

With Aetna Specialty Pharmacy, your patients get a personal care plan and ongoing support:

- **Nurses and pharmacists** who specialize in each patient’s needs are on call 24 hours a day.
- **Care coordinators** work with your patients to help orders process quickly.
- **Insurance and claims specialists** help your patients maximize their benefits plan.
- **Service representatives** reach out to you or your patient to set up your refills.

Aetna Specialty Pharmacy offers other helpful services, including:

- Free, secure delivery usually within 48 hours of confirming each order, or later if you request
- Delivery to the patient’s home, your office or any other location needed
- Package tracking to ensure prompt delivery of each order
- Self-injection training/education to help your patient understand his or her condition and medication

**Flexible payment options for out-of-pocket costs, when necessary**

- Free injection supplies, such as needles, syringes, alcohol swabs, adhesive bandages and Sharps containers for needle waste, if needed

Aetna Specialty Pharmacy dispenses specialty medications to treat many complex diseases

Many of these medications are available only through limited distribution networks. Aetna Specialty Pharmacy also works hard to monitor the FDA’s pipeline to get access to new specialty therapies as they come to market. If Aetna Specialty Pharmacy gets a prescription order for one of the few therapies they don’t have access to, we respond without delay. An Aetna Specialty Pharmacy representative will forward the prescription to the appropriate contracted specialty pharmacy, along with a letter.

**Ordering through Aetna Specialty Pharmacy is easy**

- Print and complete a Medication Request Form.
- Fax it to 1-866-FAX-ASRX (1-866-329-2779).
- Or mail it to Aetna Specialty Pharmacy, 503 Sunport Lane, Orlando, FL 32809.

**Electronic prescribing**

Physicians use e-prescribing technology to input prescriptions through an EMR using a tablet, smartphone or desktop computer. Physicians can send orders electronically to the patient’s pharmacy, eliminating the need for patients to physically take the prescription to their pharmacy. Electronic prescribing also helps:

- Reduce paperwork and result in faster, more accurate information
- Simplify the prescribing process for physicians and patients
- Lessen the number of phone calls that physicians get from pharmacies trying to understand their handwriting
- Reduce medication errors resulting from unreadable, handwritten prescriptions

Aetna Pharmacy Management tries to integrate our pharmacy information with our clinical support tools. Our goal is to make insightful connections that can help us to identify and act on opportunities to help improve member health. Care Consideration alerts are just one example. Through personalized outreach, we share recommendations to encourage members to get the right care at the right time. This service is confidential, and is included free of charge as part of our Aetna pharmacy benefits plan coverage.

Learn more about e-prescribing products and services.

**Opioid Overdose Risk Screening Program**

In an effort to address the rising opioid epidemic, we have implemented a screening program to identify members at risk for opioid overdose. Our clinicians screen behavioral health members to identify patients who can benefit from this program. Any patient receiving a diagnosis of opioid dependence is considered to be at risk.

Consider naloxone as part of the treatment plan for patients at risk of an opioid overdose. Naloxone reverses the effects of an opioid overdose. Giving naloxone kits to laypeople reduces overdose deaths, is safe and is cost effective. Other elements supporting this potentially life-saving intervention include telling patients and their family/support network about signs of overdose and about administering medication.

Coverage of naloxone rescue kits varies by individual plans and can be verified by calling the number on the member ID card. Note that as of January 1, 2018, we’ll waive copays for the naloxone rescue medication Narcan® for fully-insured commercial members.
Pharmacy clinical policy bulletins

Aetna's Pharmacy Clinical Policy Bulletins (PCPBs) are used as a guide when determining coverage for members with benefits plans that cover outpatient prescription drugs. These bulletins also describe the medical exception clinical coverage criteria for drugs on our Formulary Exclusions List, Precertification List, Step-Therapy List and Quantity Limits List.

Precertification, step therapy and quantity limits

Precertification

Most members with Aetna pharmacy benefits may have a plan that includes precertification. These drugs require extra coverage review before they are covered.

Precertification is based on current medical findings, FDA-approved manufacturer labeling information and guidelines, and cost and manufacturer rebate arrangements.

Visit our website to determine which medications may require precertification. If you have questions, call us at 1-800-AETNA RX (1-800-238-6279).

Step therapy

Some members may have a plan that includes step therapy. With step therapy, certain drugs are not covered unless members try one or more preferred alternatives first. Step therapy is based on current medical findings, FDA-approved manufacturer labeling information, FDA guidelines and cost and manufacturer rebate arrangements.

If it’s medically necessary, a member can get coverage of a step-therapy drug without trying a preferred alternative first. In this case, a physician, patient or a person appointed to manage the patient’s care must request coverage for a step-therapy drug as a medical exception. The drugs requiring step therapy are subject to change.

You’ll find current step-therapy requirements on our website. If you have questions, call us at 1-800-AETNA RX (1-800-238-6279).

Quantity limits

We also limit coverage on the quantity of certain drugs.

Quantity limits are established using medical guidelines and FDA-approved recommendations from drug manufacturers. The quantity limits include:

- Dose efficiency edits: Limits coverage of prescriptions to one dose per day for drugs that are approved for once-daily dosing.
- Maximum daily dose: A message is sent to the pharmacy if a prescription is less than the minimum or higher than the maximum allowed dose.
- Quantity limits over time: Limits coverage of prescriptions to a specific number of units in a defined amount of time.

You, your patient or the person appointed to manage the patient’s care may request a medical exception for coverage of amounts over the allowed quantity. Contact the Aetna Pharmacy Management Precertification Unit. Refer to the Medical Exception and Precertification information on how to access this unit.

Generic drugs

- Under Aetna’s commercial closed formulary plans, generic drugs are generally covered with the exception of a few generic drugs specifically listed on the Formulary Exclusions List.
- Many commercial formulary plans have a lower copay for covered generic drugs. However, several generics are considered nonpreferred and may be subject to a higher, nonpreferred copay in some plans.
- To control health care costs and help your patients save money, consider prescribing preferred generic drugs when appropriate.
- In some plans, if the member or their physician requests a brand-name drug when a generic drug is available, the member may have to pay the difference in cost between the brand-name and the generic drug in addition to their copay.
- Many state laws encourage or require the pharmacy to dispense generic drugs, if the prescriber permits.

Medical exception and precertification

To ask for a medical exception for coverage of drugs on the Formulary Exclusions List or the Step-Therapy List, or to request prior authorization or exceptions to quantity limits, physicians, patients or a person appointed to manage the patient’s care can contact the Aetna Pharmacy Management Precertification Unit by:

Policies

Complaints and appeals

Aetna has developed a formal complaint and appeal policy* for physicians, health care professionals and facilities. The complaint and appeal process has:

- One level of appeal

Physician, health care professional and facility appeals involve payment decisions (claims) but don’t include dissatisfaction with pre-service or concurrent medical necessity decisions, which are handled through the member appeal process.

Note: The process may vary due to state-specific requirements. For more information on complaints or appeals, contact your local Aetna office.

Physician/health care professional post-service appeals are classified as payment appeals and are not considered “on behalf of the member” unless:

- The appeal explicitly states “on behalf of the member” and
- The physician or health care professional submits specific written authorization from the member

View more information on our appeal process. Select Health Care Professionals > Dispute & Appeal Process.

In accordance with CMS requirements, Aetna has a formal process for Medicare Advantage plan provider dispute resolution for non-contracted providers.

Medical Clinical Policy Bulletins

Aetna Clinical Policy Bulletins (CPBs) are internally developed policies that we use as a guide for determining health care coverage for our members. Our CPBs are written on selected clinical issues, especially addressing new medical technologies (devices, drugs, procedures and techniques). The CPBs are used as a tool to be interpreted in conjunction with the member’s specific benefits plan and after consultation with the treating physician. Our benefits plans generally exclude from coverage medical technologies that are considered experimental and investigational, cosmetic and/or not medically necessary.

CPBs are continually reviewed and updated to reflect current information.

*Medicare Advantage plans must comply with CMS requirements and time frames when processing appeals and grievances received from Medicare Advantage plan members. Refer to the Medicare section of this manual for further information.
Because technology advances over time, we review new medical technologies and new applications of established technologies regularly to determine whether and how such technologies will be considered medically necessary and/or not experimental/investigational under our benefits plans.

Our process of assessing technologies begins with a comprehensive review of the peer-reviewed medical literature and other recognized references concerning the safety and effectiveness of the medical technology. This evaluation involves analyzing the results of studies published in peer-reviewed medical journals.

We consider the position statements and clinical practice guidelines of medical associations and government agencies, including the Agency for Healthcare Research and Quality (AHRQ). When applicable, we consider the regulatory status of a drug or device, including review by the U.S. Food and Drug Administration (FDA) and Centers for Medicare & Medicaid Services (CMS) coverage policies.

We develop our CPBs from a review of relevant information regarding a particular technology. CPBs are published on our website for public reference.

Medical emergencies

If patients require emergency care, they're covered 24 hours a day, 7 days a week, anywhere in the world. In the event of a medical emergency, the patient should follow the guidelines below when accessing emergency care, regardless of whether the patient is in or out of one of Aetna's service areas.

- Call the local emergency hotline (e.g., 911) or go to the nearest emergency facility. If a delay would not be detrimental to the patient's health, call the primary care physician.
- After assessing and stabilizing the patient's condition, the emergency facility should contact the primary care physician so he or she can assist the treating physician by supplying information about the patient's medical history.
- If the patient is admitted to an inpatient facility, the patient, a family member or friend acting on behalf of the patient should notify the primary care physician or Aetna as soon as possible.
- All follow-up care should be coordinated by the primary care physician, where applicable (medical only).

An "emergency medical condition" involves acute symptoms that are severe enough that someone with an average knowledge of health could expect that the absence of medical attention would result in serious harm. For pregnant women, the health of both the woman and her unborn child must be taken into consideration.

Note: State mandates may apply.

Members traveling outside their service area or students who are away at school are covered for emergency and urgently needed care. Urgent care may be obtained from a private practice physician, a walk-in clinic, an urgent care center or an emergency facility.

Certain conditions, such as severe vomiting, earaches, sore throats or fever, are considered "urgent care" outside the Aetna service area and are covered in any of the above settings. Preventive care services and other routine treatment for conditions such as minor colds and flu are not covered outside the Aetna service area.

When claims submitted to us by the physician or health care professional who supplied care do not appear to meet the standards for emergency or urgent care, it may be necessary for us to review the records from the emergency visit. In this situation we will send a request to the treating facility for the records of the visit and notify the member of the request. If the member wishes, he or she may provide a Member Services representative with additional information by telephone or through correspondence regarding the circumstances of the visit.

Follow-up care after emergencies

Again, the primary care physician should coordinate all follow-up care. In all cases, the primary care physician must record all pertinent information regarding the emergency visit in the patient's chart.

Precertification is required before any out-of-network follow-up care, either inside or outside the Aetna service area, can be covered. You can obtain precertification electronically or by calling the toll-free number on your patient's member ID card.

Suture removal, cast removal, X-rays and clinic and emergency room revisits are some examples of follow-up care.

Note: State regulations and contractual provisions regarding emergency admissions may, in some circumstances, supersede the procedures described above.

Pharmacy Clinical Policy Bulletins

Aetna's Pharmacy Clinical Policy Bulletins (PCPBs) are used as a guide when determining coverage for members with benefits plans covering outpatient prescription drugs. These bulletins also describe the medical exception clinical coverage criteria for drugs on our Formulary Exclusions List, Precertification List and Step-Therapy List. All PCPBs are accessible on our website.

Assignment of benefits/obligation to submit claims

Provider represents that, where necessary, it has obtained signed assignments of benefits authorizing payment for provider services to be made directly to provider and/or group providers.

Referral policies

In benefits plans that require the issuance of referrals for specialist care, the primary care physician is responsible for coordinating his or her patients' health care. If it's necessary for the patient to see a specialist, other than for direct-access
services* or emergency care, the primary care physician must request a referral prior to the patient’s visit to the specialist. The referral must be for covered benefits under the plan.

Submit an inquiry through the eligibility transaction or call the number on your patient’s member ID card to confirm covered benefits.

If your patient visits a specialist without a referral, depending on his or her plan type, the patient may be responsible for payment for all services rendered or for paying a deductible and coinsurance. The patient should not return to the primary care physician to request a referral after the service is rendered; primary care physicians should not issue retroactive referrals.

In Aetna products that do not require the issuance of a referral, a patient may self-refer to either participating or nonparticipating physicians/health care professionals. The patient is responsible for paying any applicable copayment, deductible and/or coinsurance for self-referred benefits. See the Patient Management and Acute Care section for rules regarding preauthorization for certain services.

In Aetna Open Access plans, referrals also are not necessary. A patient may self-refer to any participating physician/health care professional.

In addition to the requirement that primary care physicians review every referral issued by their practice, we recommend that the initial consultative referral be authorized for one visit, except when the patient is known to have a predicted need for more visits, or when the patient is involved in an ongoing process of care. This encourages communication from the specialist to the primary care physician.

**Requirements for utilization of non-participating providers**

For members who have a plan that allows for benefits for services from providers who are not participating — if provider admits or arranges for admission to a non-participating provider (including, but not limited, to surgery centers), or refers a member to a non-participating provider, provider will document the member’s written consent, and that the member has been provided with notice of the following information:

1. the hospital, facility, or provider is not a participating provider; and
2. the member’s plan may, therefore, provide reduced benefits; and
3. the non-participating provider will not be restricted to seeking payment only from Company; and
4. the non-participating provider may bill the member for amounts other than deductibles, co-payments, coinsurance, and medical services not covered under the member’s plan; and
5. Provider’s affiliation or financial ownership interest in or with the non-participating provider, if any.

A copy of the member’s written consent and the notice outlined above will be kept in the patient’s file. Company will make available a form which may be used for such purpose.

Following an initial consultation, additional referrals from the primary care physician are required in the following instances:

- If the specialist wishes to provide additional services not originally requested on the referral
- If the specialist refers his or her patient to a second specialist
- If the specialty visits will exceed the number of visits initially authorized by the primary care physician
- If the specialty visits require an extension beyond the Referral Thru Date

Our standard Participating Specialist Physician Agreement requires that specialists communicate with the referring physician in a timely fashion. After receiving the consultation report from the specialist, the primary care physician can consider the appropriate course of treatment (e.g., referrals for additional services and/or follow-up care, if needed).

Referrals may be authorized for consultation and treatment (C&T) using CPT code 99499. In most areas, C&T referrals do not need to specify the procedures to be performed by the specialist.** Specialists will be reimbursed for any associated covered procedure performed in an office setting, in accordance with current claims processing guidelines.

**Note:** Referrals do not permit specialists to refer members to another specialist for care. If this is necessary, patients must get a referral from their primary care physician to see another specialist. This referral is not a guarantee of payment. Payment is subject to eligibility on date of service, plan benefits, limitations and exclusions, pre-existing condition limitations, and patient liability under the plan.

**Referral processes**

Electronic referrals should be issued for all plans that require referrals (see Aetna Benefits Products). For information on submitting electronic referrals, see the Electronic Solutions for Provider Offices section.

For obstetric testing or infertility services, refer to the Women’s Health Programs and Policy Manual, available at Provider Manuals.

For services requiring precertification, see the Patient Management and Acute Care section.

**Note:** Physicians or other health care professionals who participate with us through an independent practice association (IPA), physician medical group (PMG) or physician hospital organization (PHO) should consult their IPA, PMG or PHO on all plan policies and procedures. Some of these referral guidelines may not apply to physicians or

---

*For benefits plans that require the issuance of referrals for specialist care in southern New Jersey, Pennsylvania, Maryland, Virginia and the District of Columbia, the member should be directed to his or her PCP for referrals for laboratory and radiology services.

**Referrals in Texas are only valid for 30 calendar days. After this time, another referral is needed*
health care professionals participating with us through these groups. (Upstate New York physicians/health care professionals: Continue to work with Aetna and/or your respective IPA in your usual manner.)

**Member billing**

Provider may bill or charge members only in the following situations:

a) applicable copayments, coinsurance and/or deductibles not collected at the time that covered services are rendered;

b) except as prohibited by law or governmental directive, if a Payer that is not a company affiliate (e.g., a self-funded plan sponsor) becomes insolvent or otherwise fails to pay provider according to applicable federal law or regulation (e.g., ERISA), provided that provider has first exhausted all reasonable efforts to obtain payment from the Payer; and

c) services that are not covered services only if:

- (i) the member’s plan provides and/or Payer or Company confirms that the specific services are not covered;
- (ii) the member was advised in writing prior to the services being rendered that the specific services may not be covered services; and
- (iii) the member agreed in writing to pay for the services after being advised

Provider agrees that it will bill or charge members at the contracted rates set forth in your agreement when services would be covered services but for the member’s exhaustion of applicable plan benefits. Unless confirmed otherwise in writing by Company or Payer. Provider acknowledges that denial or adjustment of payment to provider based on performance of utilization management or otherwise is not a denial of covered services under your agreement or under the terms of a plan. Provider may bill or charge individuals who were not members at the time that services were rendered.

**Claims payment policy — rebundling**

Provider agrees to permit rebundling to the primary procedure those services considered part of, incidental to, or inclusive of the primary procedure. And, to allow other adjustments for inappropriate billing or coding (e.g., duplicative procedures or claim submissions, mutually exclusive procedures, gender/procedure mismatches, age/procedure mismatches). In performing rebundling and making adjustments for inappropriate billing or coding, Company may utilize one or more commercial software packages (as modified by Company in the ordinary course of Company’s business) which commercial software package(s) may rely upon Medicare and/or other industry standards in the development of rebundling logic.

**Reporting encounter data**

For the services for which provider is compensated on a capitated basis, if any, provider agrees to provide Company with encounter data by type of provider Service rendered to members in the form and manner as specified by Company. There will be no restrictions on Company’s use of such encounter data. Furthermore, Company is under no obligation to return the encounter data to provider.

**Women’s health**

**Overview**

We focus on the special needs of women through programs that promote their health and well-being. We’re committed to educating your patients about the lifelong benefits of preventive health care. You can find patient-focused information in our Women’s Health section. These programs include:

<table>
<thead>
<tr>
<th>Program</th>
<th>Contact information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Nurse case management and education for women with breast cancer</td>
<td>1-888-322-8742</td>
</tr>
<tr>
<td>BRCA genetic testing program (genetic testing for breast and ovarian cancers)</td>
<td>1-877-794-8720</td>
</tr>
<tr>
<td>Beginning Right maternity program to help members and physicians give babies a healthier start</td>
<td>1-800-272-3531</td>
</tr>
<tr>
<td>Aetna’s infertility program* to help members and physicians throughout infertility care</td>
<td>1-800-575-5999</td>
</tr>
</tbody>
</table>

*Infertility benefits may vary depending on plan type and state law. You can check benefits by calling the toll-free number on the member’s ID card.
Female members have direct access to participating obstetricians and gynecologists for routine and preventive care (breast exams, mammograms and Pap tests). These doctors can authorize referrals (if applicable) for related specialty care. You can find specific policy information in the Women's Health Programs and Policies Manual.

Overview: Obstetric Enhancement Programs

We developed three programs that give enhanced reimbursement to obstetricians who perform ultrasound studies and fetal non-stress tests (NST) in their offices. All programs have eligibility requirements and apply to obstetric ultrasounds and NSTs for Aetna members enrolled in HMO, Aetna Open Access HMO, QPOS and Aetna Choice POS plans. Participation in these programs eliminates referrals and billing for individual procedures.

- **Complete Obstetric Ultrasound Program**: Physicians who participate in the Complete Ultrasound Program perform all necessary obstetric ultrasounds in the office and get an enhancement to the global obstetric fee, regardless of the number of ultrasounds they perform.
- **Limited Obstetric Ultrasound Program**: Physicians who participate in the Limited Ultrasound Program perform all necessary limited ultrasounds in the office and get an enhancement to the global obstetric fee, regardless of the number of limited ultrasounds they perform.
- **Fetal Non-Stress Test (NST) Enhancement Program**: Physicians who participate in this program perform all fetal NSTs in the office and get an enhancement to the global obstetric fee, regardless of the number of fetal NSTs they perform.

For more information about these programs, call Provider Services at 1-800-624-0756. Specify that you are asking about our Obstetric Ultrasound Enhancement Programs.

Radiology accreditation

To be eligible for reimbursement for the technical component of advanced diagnostic imaging procedures, the following types of providers must be accredited by the American College of Radiology (ACR), the Intersocietal Accreditation Commission (IAC), and The Joint Commission (TJC), and/or RadSite:

- Independent diagnostic testing facilities
- Freestanding imaging centers
- Office-based imaging facilities
- Physicians
- Non-physician practitioners
- Suppliers of advanced diagnostic imaging procedures

This accreditation requirement applies to the technical component of advanced diagnostic imaging procedures. For these purposes, advanced diagnostic imaging procedures exclude X-ray, ultrasound, fluoroscopy and mammography. Included are:

- Magnetic resonance imaging (MRI)
- Magnetic resonance angiography (MRA)
- Computed tomography (CT)
- Echocardiograms
- Nuclear medicine imaging, such as positron emission tomography (PET)
- Single photon emission computed tomography (SPECT)

Note the following:

- Providers not accredited by the ACR, IAC, TJC by January 1, 2012, and/or RadSite by September 2013, will not be eligible for payment for advanced diagnostic imaging services.
- This requirement will not apply to patients who are in the hospital or in hospital emergency departments.
- This policy will not apply to hospitals, unless they own one of the above listed providers.
- The accreditation process can take nine to twelve months.

Key term definitions

Clean claim

Unless otherwise required by law or regulation, a claim which:

a) is submitted within the proper timeframe as set forth in your agreement;

b) has:

- (i) detailed and descriptive medical and patient data;
- (ii) a corresponding referral (whether in paper or electronic format), if required for the applicable claim; and
- (iii) whether submitted via an electronic transaction using permitted standard code sets (e.g., CPT-4, ICD-10 or its successor standard, HCPCS) as required by the applicable Federal or state regulatory authority (e.g., U.S. Dept. of Health & Human Services, U.S. Dept. of Labor, state law or regulation) or otherwise, all the data elements of the UB-04 or CMS-1500 (or successor standard) forms (including but not limited to member identification number, national provider identifier (“NPI”), date(s) of service, and complete and accurate breakdown of services);

c) does not involve coordination of benefits; and

d) has no defect or error (including any new procedures with no CPT code, experimental procedures or other circumstances not contemplated at the time of execution of your agreement) that prevents timely adjudication.

*Members whose PCP participates with us through an independent practice association (IPA), physician medical group (PMG) or physician hospital organization (PHO) may be required to use specialists within the IPA, PMG or PHO for their direct-access services.

**Not available in all service areas. Oklahoma and Texas: Refer to local network information.
Confidential information
Any information that identifies a member and is related to the member’s participation in a plan, the member’s physical or mental health or condition, the provision of health care to the member or payment for the provision of health care to the member. Confidential information includes, without limitation, “individually identifiable health information,” as defined in 45 C.F.R. § 160.103 and “non-public personal information” as defined in laws or regulations promulgated under the Gramm-Leach-Bliley Act of 1999, as amended from time to time.

Emergency services
Except as otherwise required by law or otherwise defined in the applicable plan, the services necessary to treat a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in:

a) placing the health of the individual or, with respect to a pregnant woman, her pregnancy or health or the health of her fetus in serious jeopardy;

b) serious impairment to bodily functions; or

c) serious dysfunction of any bodily organ or part.

Medically necessary
Health care services that a physician exercising practical clinical judgment would provide to a patient for the purpose of preventing, evaluating, diagnosing or treating an illness, injury, disease or its symptoms, and that are:

a) according to generally accepted standards of medical practice;

b) clinically appropriate, in terms of type, frequency, extent, site and duration, and considered effective for the patient’s illness, injury or disease; and

c) not primarily for the convenience of the patient, physician or other health care provider, and not more costly than alternative service or sequence of services at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of that patient’s illness, injury or disease. For these purposes, “generally accepted standards of medical practice” means standards that are based on credible scientific evidence published in peer-reviewed medical literature generally recognized by the relevant medical community or otherwise consistent with the standards set forth in (b) above.

Primary care provider
A participating provider whose area of practice and training is family practice, general medicine, internal medicine or pediatrics, or who is otherwise designated as a primary care provider by Company, and who has agreed to provide primary care services and to coordinate and manage all covered services for members who have selected or been assigned to such participating provider, if the applicable plan provides for a primary care provider. This term may also include a nurse practitioner and/or physician assistant practicing within the applicable scope of practice, provided such provider meets Company standards and Policies.

Information
All data and information obtained, created or collected by Provider related to Members and necessary for payment of claims, including without limitation confidential information.

Records
All books, records and other papers (including, but not limited to: medical and financial records, contracts and computer or other electronic systems) and information relating to this provider manual and/or the provider agreement and to those services rendered by Provider to Members.
This material is for information only and is not an offer or invitation to contract. An application must be completed to obtain coverage. Rates and benefits vary by location. Not all services are covered. Exclusions, limitations and conditions of coverage may apply. Plans may be subject to medical underwriting or other restrictions. Rates and benefits vary by location. Plans not available in all states. Providers are independent contractors and are not agents of Aetna. Provider participation may change without notice. Aetna does not provide care or guarantee access to health services. **Aexcel designation is only a guide to choosing a physician. Members should confer with their existing physicians before making a decision. Designations have the risk of error and should not be the sole basis for selecting a doctor.** Health information programs provide general health information and are not a substitute for diagnosis or treatment by a physician or other health care professional. Discount programs provide access to discounted prices and are NOT insured benefits. The member is responsible for the full cost of the discounted services. Aetna receives rebates from drug manufacturers that may be taken into account in determining Aetna’s preferred drug list. Rebates do not reduce the amount a member pays the pharmacy for covered prescriptions. Pharmacy participation is subject to change. Aetna Rx Home Delivery refers to Aetna Rx Home Delivery, LLC, a subsidiary of Aetna Inc., which is a licensed pharmacy providing prescription services by mail. This pharmacy is a for-profit entity. Aetna Specialty Pharmacy refers to Aetna Specialty Pharmacy, LLC, a subsidiary of Aetna Inc., which is a licensed pharmacy that operates through specialty pharmacy prescription fulfillment. This pharmacy is a for-profit entity. Medications on the precertification, step therapy and quantity limits lists are subject to change. Aetna’s Preferred Drug List is subject to change. Information is believed to be accurate as of the production date; however, it is subject to change. For more information about Aetna plans, refer to aetna.com or aetnamedicare.com.
