

# Specialty drug coverage

---

**For members with the Aetna Premier plan**  
2021 Aetna Specialty Drug List

## What is a specialty drug?

Specialty drugs treat complex, chronic conditions. A nurse or pharmacist will often support their use during treatment. These drugs may be injected, infused or taken by mouth. You may need to refrigerate them. They are often expensive and may not be available at retail pharmacies.

Check your plan documents for full details of specialty coverage and if your plan has out of network benefits or requires the use of a specialty pharmacy.

Key	
UPPERCASE	Brand-name medicine
<i>lowercase italics</i>	Generic medicine
<b>PA</b>	(Prior authorization, also called preauthorization or precertification) Drug requires prior authorization on some plans.
<b>QL</b>	(Quantity Limits) Drug has quantity limits on some plans.
<b>ST</b>	(Step Therapy) Drug has step therapy requirements on some plans.
<b>NPL</b>	(National Precertification List) Prior authorization is required for all plans.
<b>SN</b>	(Specialty Pharmacy Network) indicates the type of pharmacy where prescription may be filled:
<b>LD</b>	(Limited Distribution) Drug may not be available through Aetna Specialty Pharmacy Network.
√	Drug may be required to be filled through the Aetna Specialty Pharmacy network.
*	Specialty drugs may also be available through a retail pharmacy or through Aetna Specialty Pharmacy Network.
^	May be required to be filled at an Aetna Specialty Pharmacy network pharmacy after two (2) retail pharmacy fills.

## Specialty Drug List for Premier plan effective January 1, 2021

**If your doctor supplies or administers your drug, they may continue to do so. Your medical plan may continue to cover your drug.**

These drug coverage review programs may not apply in all service areas. Refer to your plan documents.

This document contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers not affiliated with Aetna. Information is believed to be accurate as of the production date; however, it is subject to change.

In certain states, including Arkansas, Colorado, Connecticut, Delaware, Georgia, Illinois, Louisiana, Maryland, Minnesota, North Dakota and Texas, step-therapy programs do not apply to fully insured member's utilizing prescription drugs for the treatment of stage-four advanced, metastatic cancer.

To check coverage and copay information for a specific medicine, log into your member website. For more information about Aetna plans, please visit the website on your member ID card and log into your member website. For questions, please call the toll-free number on the back of your member ID card.
