Dear Physician or Health Care Professional:

The state of New York requires Aetna to validate annually each participating provider’s demographic information and certain other information that is displayed in our online provider directory. This letter explains the validation process and how to notify us if a provider should no longer be listed in our directory.

Validation Steps
1. Review the provider’s demographic information below.
2. If changes are needed, note any changes on the form and fax to 860-754-0797.
3. If NO changes are needed, please complete our online confirmation form at: www.aetnavalidation.com. Once complete, we’ll automatically update our records to show your validation is done. This will prevent follow up validation requests being sent to your office.
