

2025 MLR Experience Year Rebate Pools

Aetna Health plans are scheduled to receive rebates under the Health Care Reform Minimum Medical Loss Ratio (MLR) requirements. Rebates will be mailed to policyholders of plans in the following pools by September 30th.

The pools are based upon the criteria specified by the government. In the Group market, plan sponsors are policyholders. In certain circumstances, the government requires insurers to issue rebates to subscribers of Group plans rather than policyholders. In the Individual plan market, rebate payments will be made to the subscriber policyholder of the Individual plan.
