This document is a quick guide for your office to use for precertification with patients enrolled in Aetna health plans. This process is also known as prior authorization or prior approval.

You can use this document as an overview of best practices working with Aetna. It will be your reference for Current Procedural Terminology (CPT®) codes for services, programs and prescriptions that require approval for coverage.

Make sure you review and understand how to submit a precertification request to Aetna. To learn more, refer to the How to Submit section.

Check out the table of contents on the next page for a closer look at what you’ll find in this guide.
Click on the tabs above to go directly to each section. You can also use Ctrl + F on Windows® (Command + F on Mac®) to search the document for keywords.

This information applies to:
• Aetna® plans
• Aetna Medicare plans
• Allina Health|Aetna plans
• Banner|Aetna plans
• Innovation Health® plans
• Sutter Health | Aetna plans
• Texas Health Aetna plans

This information doesn’t apply to members in a Traditional Choice® plan or an indemnity plan.

Refer to the general information section for guidance on Federal Employee Health Benefit Plans, including Foreign Service Benefit Plan, Mail Handlers Benefit Plan (MHBP), and Rural Carrier Benefit Plan.

This document was last updated on May 1, 2024.
IMPORTANT: As the patient’s attending physician, you must complete all sections of a submission. If you don’t send all medical records we ask for, it may delay our review or cause a denial of coverage.

You must submit precertification requests at least two weeks in advance. You can save time by requesting precertification online. Doing so is fast, secure and simple.

You can submit most requests through our Availity® provider portal. You can also send requests for specialty drugs with Novologix® through Availity.

Go to Availity.com to start a request.

Note: Your office may also send in an electronic request. Just use your own Electronic Medical Record (EMR) system.

Go to Aetna.com/ProviderPrecertificationList to learn more about the precertification process.

What happens next

Once we have the requested information, we’ll perform a clinical review. We will let you know when we make a coverage determination.

How we make coverage determinations

If you’re asking for precertification for a Medicare Advantage member, we use CMS benefit policies to make our coverage decisions. This includes national coverage determinations (NCD) and local coverage determinations (LCD), when available. If there isn’t an available NCD or LCD to review, we’ll use the Aetna Medicare Part B Drug Criteria, Clinical Policy Bulletin and Precertifications List. You can find them by going to the website on the back of the member’s ID card.

Questions?

If you have any questions about submitting a request or about our precertification process, call us:

- Commercial plans: 1-888-632-3862 (TTY: 711)
- Medicare plans: 1-800-624-0756 (TTY: 711)

Or visit Aetna.com/ProviderPrecertificationList to learn more.
You should know

• This material is for your information only. It’s not meant to direct treatment decisions.
• The review of items on this list may vary at our discretion. If you receive approval for a service or supply, it’s for that service or supply only.
• Services that don’t need precertification are subject to the coverage terms of the member’s plan.

Special information for members in Texas

• For precertification in Texas, we use the utilization review process to determine whether the requested service, procedure, prescription drug or medical device meets the company’s clinical criteria for coverage. Precertification doesn’t mean payment for care or services to fully insured HMO and PPO members as defined by Texas law.

Coverage changes and updates

• If member eligibility and plan coverage for the procedure or service you asked for hasn’t changed, precertification approvals are valid for six months. This is true for all states. This is also the case unless we tell you otherwise when you receive the precertification decision.
• We update the precertification list each year. We usually do this in January and July. But we may add new drugs approved by the Federal Drug Administration (FDA) to the list at other times.

For more information

• Visit Clinical Policy Bulletins and our online provider directory.
• The precertification process doesn’t include verbal or written requests for information about benefits or services not on the precertification lists. Our staff can assess if a caller is making an inquiry or asking for a coverage decision or organization determination.
• We don’t offer all plans in all service areas. Not all plans include all services listed. For example, precertification programs don’t apply to fully insured members in Indiana.

Innovation Health®

• Innovation Health Insurance Company and Innovation Health Plan, Inc. (Innovation Health) are affiliates of Aetna Life Insurance Company (Aetna) and its affiliates. Aetna® and its affiliates provide certain management services for Innovation Health.
• Find more information about notification and coverage determinations.
• We require precertification when Aetna or Innovation Health is the secondary payer.

Maternity information

We require precertification for maternity and newborn stays that are more than the standard length of stay (LOS). Standard LOS for:
• Vaginal deliveries is three days or fewer
• Cesarean section is five days or fewer
Oral medications and injections

Contact Aetna® Pharmacy Management for precertification of oral medications not on this list.
- Their number is **1-800-414-2386 (TTY: 711)**
- Call **1-866-782-2779 (TTY: 711)** for information on injectable medications not listed.

For drugs administered orally, by injection or infusion:
- Drugs newly approved by the FDA may require precertification review.
- Members of fully insured Texas and Louisiana plans have coverage for drugs we add to the precertification list according to their current plan design until their plan renews.
- Fully insured California HMO members and fully insured Connecticut PPO members covered for drugs added to the precertification list continue to have coverage.
  - Drug coverage continues for these California members as long as the doctor prescribes it appropriately. It must also be a safe and effective treatment for the medical condition.
  - Drug coverage continues for these Connecticut members as long as the drug is medically necessary and more medically beneficial than other covered drugs.
  - The prescribing provider must respond to requests for more information. For fully insured members with a Colorado state contract, we'll approve or deny precertification requests within time frames mandated by Colorado Regulation 4-2-49 RX Prior Authorization.

Student Health and Allina Health|Aetna plan information

For members enrolled in Aetna Student Health or Allina Health|Aetna, precertification is not required for the following outpatient services:
- Diagnostic cardiology
- Hip and knee arthroplasties
- Pain management
- Polysomnography
- Radiology imaging
- Radiation oncology

Special information for members enrolled in a Dual Special Needs Plan (DSNP) in Florida

Precertification may be required for Medicaid services to eligible recipients. You can utilize your current electronic solutions to submit a precertification request or call the number listed on the member’s ID card.
For more information, read all general precertification guidelines

For commercial members, certain elective procedures, as noted with an asterisk (*), are subject to the medical necessity review of the procedure and the site of service.

See Evidence of Coverage for a complete description of plan benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by service area. Participating physicians, hospitals and other health care providers are independent contractors and are neither agents nor employees of Aetna. The availability of any particular provider cannot be guaranteed, and provider network composition is subject to change. Out-of-network/non-contracted providers are under no obligation to treat Aetna members, except in emergency situations. Please call our customer service number or see your Evidence of Coverage for more information, including the cost-sharing that applies to out-of-network services. The formulary, provider and/or pharmacy network may change at any time. You will receive notice when necessary.
