

# Specialty drug coverage

---

## 2021 Aetna Specialty Drug List

You must fill these drugs at an in-network specialty pharmacy. Look up your plan documents for specialty drug coverage details. You'll also learn more about the requirements and limitations of your pharmacy benefits and insurance plan.

### What is a specialty drug?

Specialty drugs treat complex, chronic conditions. A nurse or pharmacist will often support their use during treatment. These drugs may be injected, infused or taken by mouth. You may need to refrigerate them. They are often expensive and may not be available at retail pharmacies.

Key	
UPPERCASE	Brand-name medicine
<i>lowercase italics</i>	Generic medicine

Category			
<b>Acromegaly</b>	BYNFEZIA PEN <i>octreotide acetate</i> (SANDOSTATIN)	SANDOSTATIN LAR SOMATULINE DEPOT SOMAVERT

Please remember that this is not a complete list of drugs covered under your plan. Products may be subject to plan-specific copayment or coinsurance, additional charges or other restrictions. Certain drugs, such as those for infertility, erectile dysfunction, weight loss, smoking cessation or vitamins, may not be covered by your particular pharmacy plan. Diabetic supplies may be covered under your medical plan.

To check coverage and copay information for a specific drug, please visit [aetna.com](https://www.aetna.com) and log in to your secure member website. If you don't have access to our website, call the toll-free number on your member ID card.

Coverage for specialty drugs follows the CVS Caremark Advanced Control Specialty Formulary™ and is being used with permission from CVS Health and/or one of its affiliates.

Information is believed to be accurate as of the production date; however, it is subject to change.

**Policy forms issued in Missouri include:** AL HGrpPol 01R5, HI HGrpAg 05, HO HGrpPol 04, HO GrpPolAmend-ThirdPartyPay 01.

**Policy forms issued in Oklahoma include:** AL COC00010, HC COC00010.
