

Aetna Institutes™ Gene Based, Cellular and Other Innovative Therapy (GCIT™) Designated Centers

Gene Based, Cellular and Other Innovative Therapy (GCIT) services are gene-based, cellular and/or innovative therapies that have a basis in genetic/molecular medicine. GCIT products and services, as determined by Aetna, are FDA approved therapies that have the potential to cure previously untreatable, often fatal, conditions.

All GCIT services will be authorized in accordance with Aetna’s [Drug Infusion Site of Care Policy and with the Aetna Member’s specific benefit plan](#). Preauthorization is required for coverage to be effective for all GCIT services.

Providers that offer GCIT services and have met our criteria are designated to participate in the Aetna Institutes™ GCIT designated network (“Designated GCIT Providers”). Designated GCIT Providers have demonstrated a commitment to providing value for our members.

For the following GCIT therapies, Designated GCIT Providers are listed below:
