

Stay in to save more

Just refer your patients to our in-network labs.

Stay in the network and pay less

Your patients can save on out-of-pocket costs when they get lab work done in our network. Just recommend that they get testing done at one of our three preferred national labs: Quest Diagnostics®, Labcorp or BioReference Laboratories. Or you can refer them to one of the hundreds of other labs in our network. They may be surprised at how much they can save.

Here's how in-network costs compare to out-of-network costs:*

	Quest Diagnostics, Labcorp and BioReference	In-network independent lab	In-network hospital lab	Out-of- networklab
	\$	\$ \$	\$ \$ \$	\$ \$ \$ \$
Lab test price**	\$30	\$45	\$120	\$300
Patient's coinsurance or copayment	20%	20%	20%	40%
Patient pays	\$6	\$9	\$24	\$120

*The Aetna® Strategic Contract Management team analyzed costs for patients who had already met their deductibles and compared 2018 in-network prices to out-of-network prices. For certain typical tests, they found that Quest Diagnostics, Labcorp and BioReference Laboratories each charged the same amounts for the same tests. They also found that all the other options reviewed charged more. The analysis did not include in-network hospitals with separately negotiated laboratory agreements.

**These prices reflect an example of a routine lab test.

Aetna is the brand name used for products and services provided by one or more of the Aetna group of companies, including Aetna Life Insurance Company and its affiliates (Aetna).

Locate an in-network lab

Quest Diagnostics, Labcorp and BioReference Laboratories are our national preferred labs. They offer a wide range of testing services. They also work with national and specialized affiliates who offer testing services. Patients can get everything from routine blood tests to gene-based cardiology to molecular testing. And by using an in-network lab, patients can save.

Try to avoid out-of-network labs

Patients typically pay more out of pocket when they go to out-of-network labs. So be sure to refer them to in-network labs instead.

Here are some out-of-network labs:

Addiction Labs of America	Enigma Management ESA	Peach State Medical Labs
Admera Health LLC	Toxicology, LLC Exagen	Performance Laboratories LLC
Advanced Clinical Laboratory Solutions, Inc.	Diagnostics, Inc.	Physicians Reference Laboratory
Alere Toxicology	Flow Health Laboratories, LLC.	Realtox Labs

CDx Diagnostics	MedScan Laboratory Inc.	United Toxicology, LLC
Center for Genetic Services	Northwest Physicians Labs	U.S. Labs
Choice Laboratory Service, LLC	Orbit Labs, LLC	Vibrant America LLC West
Crestar Labs LLC	Pacific Physicians	Coast Clinical Lab
East Coast Laboratories	Pathology, Inc.	Western Health Sciences Medical Laboratory
Elite Medical Laboratory		

Breast cancer genes: risk and genetic testing

We've simplified your patients' access to **breast cancer gene 1 (BRCA1)** and **breast cancer gene 2 (BRCA2)** testing with Quest Diagnostics. When you use Quest for services covered in our Clinical Policy Bulletin #0227, you'll see automatic approvals for your commercial members. That can help you have a more seamless experience. So you can stay focused on the health and safety of your patients.

Quest Diagnostics

For your Medicare members, include a completed precertification form with your Quest Diagnostics or affiliate lab requisition and blood sample. Or fax the form to **1-855-422-5181**. Need more information? You can visit **QuestHereditaryCancer.com** or call Specialty Testing Services at **1-866-436-3463**.

Labcorp

Fax the precertification form to **1-855-711-5699**. If you have questions, send an email to **BRCAPriorAuth@Labcorp.com** or call **1-855-488-8750**.

Ambry Genetics

Submit a completed precertification form with a specimen sample to Ambry Genetics. Or fax the form to **949-900-5501**. To order collection and transportation kits, visit **AmbryGen.com** or call **1-866-262-7943**.

Baylor Miraca Genetics Laboratories, LLC

Fax the precertification form to **1-800-434-9850**. To order collection and transportation kits, visit **BMGL.com** or call Customer Service at **1-800-411-GENE (1-800-411-4363)**.

Genpath, BioReference

To order collection and transportation kits, visit **GeneDx.com/test-catalog/medical-specialty/hereditary-cancer/** or call **1-888-729-1206**.

Myriad Genetics, Inc.

Fax a completed precertification form to 801-584-3615 or submit it with the completed specimen collection kit to a Myriad Genetics, Inc. location. If you have questions, call **1-800-469-7423**.

Medical Diagnostic Laboratories, LLC

Submit the precertification form by fax to 609-570-1062. If you have questions or need more information, visit **MDLab.com** or call **1-877-269-0090**.

Invitae

Submit completed precertification form with the specimen sample to Invitae, or fax the form to 415-276-4164. To order sample collection and transportation kits, email **ClientServices@Invitae.com**

Prior authorization for whole exome sequencing (WES)

Ambry Genetics

Submit a completed precertification form with a specimen sample to Ambry Genetics. Or fax the form to **949-900-501**. To order collection and transportation kits, visit **AmbryGen.com** or call **1-866-262-7943**.

BaylorGenetics

Fax a completed precertification form to **1-866-399-3559**. To order collection and transportation kits, email **help@baylorgenetics.com**, visit **BaylorGenetics.com** or call **1-800-411-GENE (1-800-411-4363)**.

BioReference

Simply upload a copy of the completed Aetna precertification form and request a sample collection kit when you order through the GeneDx Healthcare Provider Portal at **Genedx.com/order**. Or, you can include the completed Aetna precertification form and paper test requisition when sending the patient sample to our lab. Our team of experts is happy to assist, you can contact them at **Zebras@Genedx.com** or **1-888-729-1206**.

- To view the exome test menu, please visit **Genedx.com/xomedx**.
- To request sample collection kits, please visit **Genedx.com/supplies**.

Invitae

Submit a completed precertification form with the specimen sample to Invitae. Or fax the form to **415-276-4164**. To order sample collection and transportation kits, email **ClientServices@Invitae.com** or call **1-800-436-3037**.

Labcorp

Submit the informed consent form and clinical questionnaire, including any additional supporting clinical documents, along with your order and sample. Visit **Labcorp.com/test-menu/search** to find the documents.

For prior authorization in advance of sample collection, please fax the clinical questionnaire, including any additional supporting clinical documents, patient demographics and insurance information to **1-844-890-0003**. Or you can email it to **PriorAuth@Labcorp.com**. If you have questions, send an email or call **1-866-248-1265**.

Quest Diagnostics

Submit a completed precertification form with your sample(s) or fax the form to **1-949-668-7818**. Need more information? You can visit **QuestExome.com**, email **GeneTeam@QuestDiagnostics.com** or call Genomic Client Services at **1-866-436-3463**.

Noninvasive prenatal testing (NIPT) preferred lab network

We've negotiated lower out-of-pocket NIPT rates with five preferred labs for noninvasive prenatal testing (NIPT).

That means you can now enjoy the convenience of working with labs you may have used before while offering your patients savings. With a variety of labs to choose from, you can simplify your referral process. And help your patients save compared to nonpreferred labs.

Choose one of these five preferred labs for NIPT and help improve the testing experience with pre-negotiated rates.
