

## Institutes of Quality® Bariatric Surgery Facilities – Northeast Region

The facilities listed in Aetna Institutes of Quality® Bariatric Surgery Network have been reviewed for bariatric surgery services. Each facility met our designation requirements for volume of services provided, clinical outcomes, access and value for our members. Bariatric surgeons listed by facility for some states are physicians who use the facility and participate in the Aetna physician network (these physicians, however, have not been reviewed based upon the standards applicable for participation as an Institute of Quality).

Bariatric services must be preauthorized with us for coverage to be effective. This is in accordance with our Clinical Policy Bulletins (CPBs). You can find these CPBs in the Health Coverage Information section on [www.aetna.com](http://www.aetna.com) (our public website) for both members and providers. Bariatric surgery is not a covered benefit under all plans, and the Bariatric Network is not available for all plans. There may be participating Institutes of Quality® Bariatric Surgery facilities that have no bariatric surgeons who are contracted with Aetna. Based on your benefits plan, you may be responsible for additional out-of-pocket costs for using contracted Institutes of Quality facilities with non-contracted providers. Please check your benefits plan for details.

To learn more about the requirements for IOQ Bariatric Facilities, please refer to program criteria at [Aetna Institutes](#).

For information on the steps to get ready for and recover from bariatric surgery, please see Aetna's member guide to bariatric surgery.
